2. CHRISTCHURCH EARTHQUAKES – CCC HERITAGE RESPONSE AND LESSONS FOR HERITAGE PROTECTION

The series of earthquakes occurring in Christchurch region since September 2010 has resulted in the most significant loss of city heritage buildings in the history of Christchurch. Very few heritage listed buildings collapsed as a direct result of the earthquake sequences. What then was the cause for widespread demolition? What have been the lessons learned and what then are the implications for protecting heritage in the future?

Presenter: Philip Barrett, Team Leader - Heritage.
