

COUNCIL 24. 4. 2013

COMMUNITY, RECREATION AND CULTURE COMMITTEE  
2 APRIL 2013

A meeting of the Community, Recreation and Culture Committee  
was held in the No. 1 Committee Room  
on Tuesday 2 April 2013 at 9.03am.

**PRESENT:** Councillor Yani Johanson (Chairperson)  
Councillors Glenn Livingstone (Deputy Chairperson), Helen Broughton,  
Tim Carter, Jimmy Chen, Barry Corbett, and Jamie Gough.

**APOLOGIES:** Councillor Peter Beck

The Committee reports that:

**PART A - MATTERS REQUIRING A COUNCIL DECISION**

**1. FACILITIES REBUILD PLAN MONTHLY STATUS UPDATE**

<b>General Manager responsible:</b>	General Manager Community Services, DDI 941 8534
<b>Officer responsible:</b>	Facilities Rebuild Portfolio Manager
<b>Author:</b>	Darren Moses – Facilities Rebuild Portfolio Manager

**PURPOSE OF REPORT**

1. To provide a monthly update to the Council on the Facilities Rebuild Programme (FRP) and associated TOP 30 priority projects.

**EXECUTIVE SUMMARY**

2. This report provides a monthly programme update on some key FRP activities for the month mid February to mid March 2013.
3. The Council position is that all buildings in the programme will be repaired or reinstated wherever possible. Council reporting needs to be considered in the sensitive context of finalising our insurance position and associated insurance negotiation implications.
4. It is worth noting that in addition to the Top 30 projects, work is still actively progressing on the rest of the prioritised programme (as approved by the Council in December 2012). A second work package (WP2) has been initiated by the FRP project team with projects selected from the prioritised Tranche 1. In some cases projects have been added to the list based on reactive needs from the community or key stakeholders. Ongoing activities include finalising Detailed Engineering Evaluation (DEE) assessments, building closure (where deemed necessary), detailed damage assessments, insurance liaison to maximise our insurance entitlement position and in some cases detailed design to allow for simple rapid repairs to allow undamaged buildings to reopen. In order to meet a self imposed five year work programme, additional projects will continue to be added to this process from the prioritised programme tranches. Those projects selected for WP 2 can be found in **Attachment 1**.
5. A full status update on those projects prioritised into the Top 30, can be found in **Attachment 2**.

**DETAILED ENGINEERING EVALUATIONS**

6. The DEE assessment commercial (non-housing) programme is currently indicating completion by April. The Social Housing DEE programme is also underway and is running concurrently with the Commercial and Heritage Programme.

1 Cont'd

7. The current status of DEE assessments is shown below in table 1.

Table 1: DEE Assessment Status

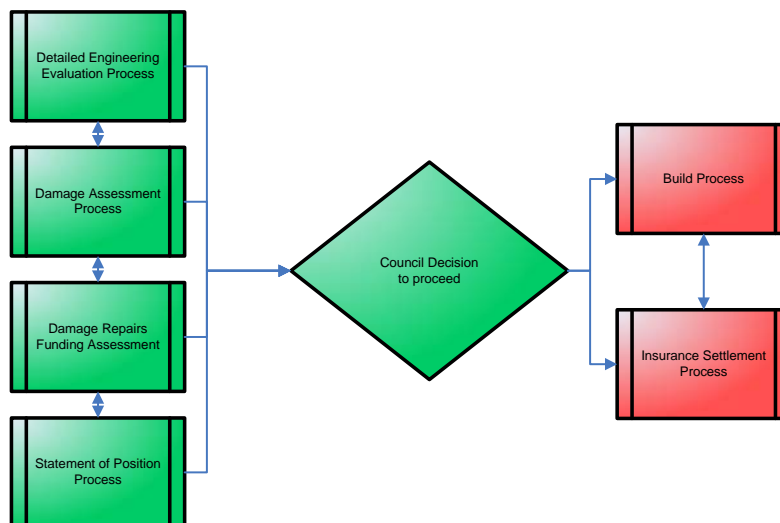

Measure	Feb 2012	This Month
<b>Number of buildings to undergo DEE assessments</b>	<b>917</b>	<b>917</b>
a) Will not get a DEE	27	27
b) Yet to start	0	0
c) In progress	569	535
d) Received as draft	285	276
e) Completed	63	106
<i>Subtotal d and e (received DEE's)</i>	<b>348</b>	<b>382</b>
On hold, Demolished, will not progress DEE	27	28
<34% NBS (earthquake prone building)	83	87
>34% and <67% NBS (fit for occupancy)	60	66
>67% and <99% NBS (below code)	44	48
>99% (code or above)	94	100

- a. *Will not get a DEE*: Building is already demolished or simple structure not requiring a DEE
- b. *Yet to Start*: Preparation stage for commissioning and preparing documents and obtaining order of cost from Engineers.
- c. *In Progress*: With the Engineering Firm for assessment, on site undertaking investigation.
- d. *Received Dee as Draft*: CCC has received the likely highest level of the Dee from the Engineer for internal review and the report is finalised with Engineers and the Finalised report returned to the CCC for GM sign off.
- e. *Completed*: GM sign off and available for public via the Web.

8. **Attachment 3** provides further information on building specific DEE assessments and New Building Standard (NBS) results.

9. Once a DEE assessment has been completed and the per cent of NBS and occupancy decision made, damage assessments begin and repair options are investigated by engineers and Council staff. This establishes the extent of damage, the work required to restore the building to its previous pre-earthquake state and an estimate of cost to do so. This information can then be assessed against our insurance entitlement to make informed decisions as to the best strategic approach, i.e. repair or rebuild. This is then reported to the Council for approval in line with existing delegations.

Diagram 1 : Generic Facilities Rebuild Workflow Process

**1 Cont'd**

10. The progress of the entire programme is expected to accelerate over the coming months due to the procurement of a new panel of damage assessment specialists. This will increase the speed at which the Council can provide its position to the loss adjusters.

**CLOSURES**

11. Since the previous Council report, and in line with the Council delegation, the following buildings have had to close due to DEE reports being received which indicate per cent of NBS less than 34 per cent:
  - Biddick Courts (12 units from 16) 19 per cent NBS.
12. Staff are still investigating repair options for closed buildings and a timeframe for re-opening is currently being determined.

**HERITAGE PROGRAMME**

13. This month work has been started on the repairs to the Jubilee (Victoria Street) Clock Tower with a completion date expected to be in August 2013. Edmonds Clock Tower repairs are well underway and expected to be completed next month.
14. As part of the TOP 30 prioritisation of Akaroa Museum, the temporary opening of the associated Akaroa Court House is now underway with seven piles needing to be repaired, to bring the NBS above 34 per cent. Investigations continue into the temporary opening of the foyer of the Akaroa Museum which involves the reconstruction of the wall between the Foyer and Gallery One. Permanent repairs to the remaining building are still being developed. Langlois-Etevenaux Cottage is now again open to the public to view (through the rear windows), thanks to some temporary works to isolate the potential 'fall zone' from the Museum Gallery One wall.
15. Grubb Cottage has been established to have an NBS above 34 per cent, and is expected to be reopened shortly.
16. Phase 1 stabilisation works for the Provincial Chambers continue and are expected to be complete by June 2013.
17. Both Avebury House and Linwood Community Centre are expected to have the repair works completed by the end of April, with opening of these facilities to follow shortly after.

**HOUSING PROGRAMME**

18. A full and comprehensive report on Social Housing can be found in **Attachment 4**.

**COMMERCIAL PROGRAMME**

19. The Community Facilities programme contains approximately 80 Council assets which are broken down into priority work packages. Work is ongoing on the facilities in work package one (Top 30) with an emphasis on completing damage assessments, strengthening reports and submitting insurance claims. Damage assessments for Bishopdale Community Centre and Fendalton Community Centre are expected in March and it is hoped that Fendalton can be re-opened in due course, pending an acceptable insurance claim.
20. Council officers are working on a collaborative arrangement to manage the repairs and strengthening work to Duvauchelle community hall. The building is currently closed and has failed its DEE assessment on age and design, rather than earthquake damage. The building services a large catchment and is one of the most well used halls on the peninsula. A re-opening date has yet to be confirmed.

## COUNCIL 24. 4. 2013

### Community, Recreation And Culture Committee 2. 4. 2013

- 4 -

#### 1 Cont'd

21. Many community centres on Banks Peninsula have failed DEE assessments through design (typically older buildings) rather than on earthquake damage. Staff have been working with the Building Consents Team to determine requirements for fixing these buildings. A workshop to discuss this in more detail has been held with the Community, Recreation and Culture Committee (CRaC) on 15 March 2013.
22. Contractors have completed repairs and strengthening work to the Botanic Gardens Art Gallery Toilets (located behind Canterbury museum). The seismic capacity of the building has been increased to greater than 67 per cent NBS and the facilities remain open to the general public.
23. Repairs to the Lyttelton recreation ground pavilion are being quantified - following the building work, staff expect to be able to re-open the pavilion in May.
24. The supporting strategies for community facilities are taken into account when assessing buildings. The vision is being reviewed and updated to reflect the loss of buildings post-earthquakes and changes to demographics. Co-locating buildings and services to create hubs is one option being looked at. Work is currently being undertaken to finalise a draft investigation into Hub options at Linwood and Sumner. A workshop to explore these options will be sought with the CRaC Committee in the very near future.
25. Repairs to Jellie Park Plantroom are being investigated. A report to the Council is expected as soon as work has been agreed with our insurers.

#### TRANSITIONAL FACILITIES

26. The Council previously approved the demolition of South New Brighton community centre. Staff are working on a transitional project to create a temporary community facility by re-locating the QEII pre-school to the old site of the South New Brighton community centre.
27. The team is investigating future use options for the Tuam St crèche building. Once the options are collected, including costs, a report will come to the Council.

#### FINANCIAL IMPLICATIONS

28. Housing units with major damage over the \$100,000 cap will qualify for a legitimate insurance claim with Civic Assurance.
29. The building assessment work required to inform the Facilities Rebuild Plan is initially funded by the Council. However, where a building's structure is damaged and a legitimate successful insurance claim is processed, the Council will recoup these costs from insurance as a legitimate policy entitlement.
30. Therefore insurers will only pay for costs associated with the strengthening to the legal requirement of 33 per cent or the pre-earthquake strength of the building (whichever is the higher). In addition insurers will not pay costs associated with strengthening to undamaged portions of buildings. Where buildings have no damage, the full cost to bring a building up to code will be a cost to the Council. This is the case with most of the buildings on Banks Peninsula. The Council's Earthquake Prone Building Policy requires buildings to be strengthened to a target of 67 per cent NBS.

#### Do the Recommendations of this Report Align with LTCCP budgets?

31. No. The work was not contemplated within the 2009-19 LTCCP.

1 Cont'd

**LEGAL CONSIDERATIONS**

32. Not applicable.

**Have you considered the legal implications of the issue under consideration?**

33. As above.

**ALIGNMENT WITH LTCCP AND ACTIVITY MANAGEMENT PLANS**

34. Not applicable.

**Do the recommendations of this report support a level of service or project in the LTCCP?**

35. Not applicable.

**ALIGNMENT WITH STRATEGIES**

36. The work being undertaken by the FRP team involves alignment with existing Facilities Strategy documents to inform decision making.

**Do the recommendations align with the Council's strategies?**

37. As above.

**CONSULTATION FULFILMENT**

38. Not applicable.

**STAFF RECOMMENDATION**

That the Community, Recreation and Culture Committee recommend that the Council receive this report.

**COMMITTEE CONSIDERATION**

During the discussion of the report, the Committee requested a Councillors' workshop be held on the subject of the Hubs category of the Facilities Rebuild Plan (refer **Attachment 2**).

**COMMITTEE RECOMMENDATION**

That the Community, Recreation and Culture Committee recommend that the Council receive this report and;

- a) That the committee request staff to bring an urgent report to Council in regards to options for the Scarborough Jetboat Building, which is an emergency services building.

**COUNCIL 24. 4. 2013**

**Community, Recreation And Culture Committee 2. 4. 2013**

- 6 -

**1 Cont'd**

- b) That the Committee request staff to:
- Consider reopening the foyer and the boardroom of 1968 addition of the Riccarton Community Centre for public use as soon as possible.
  - Respond to the Central Riccarton Residents' Association deputation and report back to the next Community, Recreation and Culture Committee meeting on action to be taken.
- c) That the Committee recommend to Council that it agree in principle that the Redcliffs Public Library be re-established on the 91 Main Road, Redcliffs site and that the insurance proceeds are ring-fenced for this purpose.
- d) That Council staff work with the Redcliffs Public Library Inc. committee on the options for the rebuild.

**2. PROPOSED DEMOLITION OF AN IMPLEMENT SHED LOCATED IN SOUTH HAGLEY PARK**

<b>General Manager responsible:</b>	General Manager Community Services, DDI 941-8607
<b>Officer responsible:</b>	Project Manager
<b>Author:</b>	Lucy Brown – Project Manager

**PURPOSE OF REPORT**

1. The purpose of this report is to seek a recommendation from the Community, Recreation and Culture Committee for the demolition of a Council-owned implement shed located in South Hagley Park (location map **Attachment 1**).

**EXECUTIVE SUMMARY**

2. The building is a single storey, unreinforced, concrete masonry shed with a light-weight, corrugated iron roof (refer to figure 1). The building sits on a concrete slab on the ground. The garage is approximately 14 metres long, six metres deep and three metres high. The shed is an important staff facility used to house equipment needed for staff to maintain South Hagley Park.
3. As a result of the recent earthquakes and aftershocks the front wall of the building has sustained a crack, approximately five millimetres thick, at the end of the concrete lintel. Failure of the front wall would cause collapse of the roof and walls along the front of the building. Following a level five quantitative assessment the building has been calculated to have a New Building Standard (NBS) value of 14 per cent and is therefore deemed significantly compromised and requiring strengthening before it can be re-inhabited.
4. This building is not insured. Council officers propose to demolish and re-build with a kit-set garage style building. This is because the large cost involved with engaging engineers to assess the earthquake damage and to design an appropriate strengthening option to repair the building is expected to be greater than the cost to rebuild.
5. The Canterbury Earthquake Recovery Authority (CERA) was asked to obtain three demolition quotes to carry out the demolition work and removal and disposal of materials from site. The most competitive of the three quotes received was submitted by Scope Demolition with a tender price of \$6,500. As a part of Scope Demolition's contract they will be required to meet CERA's demolition standards.
6. Two quotes have been obtained to replace the implement shed on its current site to the same footprint. The most competitive quote was submitted by Totalspan Steel Buildings with an estimate of \$43,173 plus GST including electrical and drain laying.

2 Cont'd

7. Council agreement is sought for the demolition of the implement shed.

**Figure 1 – Implement shed, South Hagley Park**

**FINANCIAL IMPLICATIONS**

8. The cost of the demolition and replacement shed is to come from the Sports Park Buildings renewal and replacement budget as this asset is uninsured (estimated at \$53,925).
9. To summarise from above, the quotation for demolition and site clearance is \$6,500 plus GST with the cost to rebuild at \$47,425 plus GST.

**Do the Recommendations of this Report Align with 2009-19 LTCCP budgets?**

10. As the recommendations are a consequence of the earthquake events, this issue is not addressed in the LTCCP.

**LEGAL CONSIDERATIONS**

11. The building has no heritage value. A building consent will be required.

**HAVE YOU CONSIDERED THE LEGAL IMPLICATIONS OF THE ISSUE UNDER CONSIDERATION?**

12. Not applicable.

**ALIGNMENT WITH LTP AND ACTIVITY MANAGEMENT PLANS**

13. As the recommendations are a consequence of the earthquake events, this issue is not addressed in the LTCCP.

**Do the recommendations of this report support a level of service or project in the LTCCP?**

14. Not applicable.

**ALIGNMENT WITH STRATEGIES**

15. Due to the exigencies of the Earthquake Recovery process, this recommended action is outside of 'normal' strategic process.

2 Cont'd

**Do the recommendations align with the Council's strategies?**

16. Not applicable.

**CONSULTATION FULFILMENT**

17. Consultation is not required; the asset is being replaced.

**STAFF RECOMMENDATION**

That the Community, Recreation and Culture Committee recommend that the Council agree to the demolition of the implement shed located in South Hagley Park.

**COMMITTEE RECOMMENDATION**

That the staff recommendation be adopted.

3. **INTERNATIONAL RELATIONS POLICY REVIEW**

<b>General Manager responsible:</b>	General Manager Strategy & Planning, DDI 941-8281
<b>Officer responsible:</b>	Unit Manager, Strategic Policy
<b>Author:</b>	Paul Cottam, Principal Advisor Social Policy

**PURPOSE OF REPORT**

1. This report seeks approval from the Community, Recreation, Arts and Culture (CRaC) Committee on the proposed process for a review of the Council's International Relations Policy, and on terms of reference for a working party of the Committee to oversee the review.

**EXECUTIVE SUMMARY**

2. In August 2012 the Council resolved to review the International Relations Policy (the Policy) and the associated Sister Cities Strategy (refer to [Attachment 1](#) for copies), calling for a working party to oversee this work.
3. The overall goal of the review is to provide future direction for the Council's international relationships. Consultation will take place with stakeholders such as the Sister Cities Committees, the Canterbury Development Corporation, the Christchurch and Canterbury Tourism, the Chamber of Commerce, and the tertiary sector.
4. The proposed objectives of the review are to:
  - examine the categorisation of international relationships and their relevance
  - identify what the appropriate focus and direction of relationships should be, i.e. consideration of cultural, educational and economic elements
  - explore how the life course of relationships should be managed, including the best means to initiate and end them in the interests of developing other relationships that may offer greater benefits
  - determine the best ways in which the Policy can contribute to the Christchurch Economic Development Strategy's goals and themes
  - determine effective elected member roles and responsibilities in relation to the Policy and the Sister Cities Strategy
  - the level of funding for Sister City committees and reporting to the Council
  - identify ways to recognise and communicate the implementation of the Sister Cities Strategy, including its benefits.

**3 Cont'd**

5. It is proposed to complete the review by 31 July 2013, including a report to the Council. Terms of reference have been proposed for the working party, setting out its purpose, scope, duration and membership.

**FINANCIAL IMPLICATIONS**

6. Falls within current Strategy and Planning Group budgets (City and Community Long-Term Policy and Planning).

**Do the Recommendations of this Report Align with 2009-19 LTCCP budgets?**

7. Yes – as above.

**LEGAL CONSIDERATIONS**

8. None.

**Have you considered the legal implications of the issue under consideration?**

9. Yes.

**ALIGNMENT WITH LTCCP AND ACTIVITY MANAGEMENT PLANS**

10. A review of the International Relations Policy is broadly consistent with the [City and Community Long-term Policy and Planning](#) Activity and the Civic and International Relations Activity.

**Do the recommendations of this report support a level of service or project in the 2009-19 LTCCP?**

11. Yes, advice is provided on key issues that affect the social, cultural, environmental and economic wellbeing of the city.

**ALIGNMENT WITH STRATEGIES**

12. Alignment will be sought with the Canterbury Economic Development Strategy.

**Do the recommendations align with the Council's strategies?**

13. Yes.

**CONSULTATION FULFILMENT**

14. Not applicable at this point – to occur during the review.

**STAFF RECOMMENDATION**

That the Community, Recreation and Culture Committee recommend that the Council:

- (a) Approve the proposed process for the review of the International Relations Policy.
- (b) Approve the proposed terms of reference for a working party of the Committee to oversee the review.
- (c) Nominate four Councillors to serve on the working party.

3 Cont'd

**COMMITTEE RECOMMENDATION**

That the Community, Recreation and Culture Committee recommend that the Council:

- (a) Approve the proposed process for the review of the International Relations Policy.
- (b) Approve the proposed terms of reference for a working party of the Committee to oversee the review with the following amendments:
  - Nominate *up to three* Councillors to serve on the working party.
  - *Amend terms of reference on membership to include a Ministry of Foreign Affairs and Trade representative.*

**BACKGROUND (THE ISSUES)**

**Policy Framework**

15. The International Relations Policy (the Policy) adopted by the Council in December 2005 set out a framework for Christchurch city to develop the scope of its international relations work. The Policy aims to both consolidate and strengthen sister city relationships and to pursue a wider range of international links which would enable the city to seize opportunities for economic development, learn from international best practice and increase cultural understanding.
16. The Council's international relations work allows for five different types of sister city relationships: Strategic Partnership, Sister City Relationship, Friendship Relationship, Best Practice Relationship and Special Relationship. These aim to provide a framework for new opportunities, particularly those that could provide economic and cultural benefit for Christchurch.

**Review of the Policy**

17. The review of the Policy was to take place in 2009, but did not take place due to prioritisation of the Council's workload, the 2010-11 earthquakes, and the subsequent response and recovery efforts. The Council has since called for the review to take place during 2012-13, with the following resolutions being passed at its 23 August 2012 meeting:
  - (a) *That no amendments are made to the International Relations Policy as it notes there is an overdue need for a full review in conjunction with the Sister Cities Strategy and policies.*
  - (b) *That the Council establish a working party to review the International Relations Policy and Sister Cities Strategy/policies and report back with in six months.*
18. Therefore the overall goal is to review the International Relations Policy, including the implementation of the associated Sister Cities Strategy, so as to provide future direction for the Council's international relationships.
19. Subject to confirmation by the Committee, the proposed scope of the review is to:
  - examine the categorisation of international relationships and their relevance
  - identify what the appropriate focus and direction of relationships should be, i.e. consideration of cultural, educational and economic elements
  - explore how the life course of relationships should be managed, including the best means to initiate and end them in the interests of developing other relationships that may offer greater benefits
  - determine the best ways in which the Policy can contribute to the Christchurch Economic Development Strategy's goals and themes

**3 Cont'd**

- determine effective elected member roles and responsibilities in relation to the Policy and the Sister Cities Strategy
- the level of funding for Sister City committees and reporting to the Council
- identify ways to communicate and recognise the implementation of the Sister Cities Strategy, including its benefits.

**Review Process**

20. It is envisaged that the review will examine the relevant policies and strategies of other local authorities, including those of Auckland, Wellington, Tauranga and Dunedin. Consultation will likely be needed with the Sister Cities Committees, the Canterbury Development Corporation, the Christchurch and Canterbury Tourism, the Chamber of Commerce, and the tertiary sector. Budget has been set aside for a consultant to be employed to undertake much of the work in conjunction with Council staff.
21. In order to complete the substance of the review during the 2012/2013 year, the following timetable is proposed.

**Table One:** Review Tasks and Timeframes

<b>Task</b>	<b>Timeframe</b>
Establish Council Working Party	2 April 2013
Commencement of consultant work	5 April 2013
Stakeholder consultation	April – May 2013
Working Party meetings	April – June 2013
Completion of consultant report and delivery to Council	10 June 2013
Draft Policy review and recommendations developed	30 June 2013
Reporting to CRAC Committee, Council	31 July 2013

**Council Working Party**

22. To fulfil the Council's 2012 resolution for a working party to oversee the review the following terms of reference around purpose, scope, duration and membership are proposed. It is assumed that the elected member make-up of the working party will be nominated by the CRAC Committee.

**Terms of Reference**

**Purpose**

1. To oversee the review the International Relations Policy (and the associated Sister Cities Strategy).

**Scope**

2. The Working Party shall work with staff to review the International Relations Policy including:
  - consideration of information gathered during the review, including that undertaken on the Council's behalf
  - development and evaluation of policy options
  - making recommendations to the Community, Recreation and Culture Committee on the International Relations Policy and the Sister Cities Strategy and any amendments to them.

**COUNCIL 24. 4. 2013**

**Community, Recreation And Culture Committee 2. 4. 2013**

- 12 -

**3 Cont'd**

**Duration**

3. The Working Party shall operate for four months from 2 April 2013 to 31 July 2013.

**Membership**

4. The Working Party shall have the following membership:
- up to four Councillors (one of whom to chair)
  - one Sister Cities Committee chairperson
  - one Canterbury Development Corporation representative
  - one education representative (to be determined).

**PART B - REPORTS FOR INFORMATION**

**4. DEPUTATIONS BY APPOINTMENT**

- 4.1 Jane Clarke, Aidan Lang, and Olivia James addressed the Committee with regard to the New Zealand Opera, and their applications to both the Discretionary Fund and the Strengthening Communities Fund for future finance.
- 4.2 Therese Arseneau, Bruce Irvine and Gretchen LaRoche addressed the Committee with regard to the Christchurch Symphony Orchestra, and their submission to the Three Year Plan for future finance.
- 4.3 Alan Reid and Elaine Jakobsson addressed the Committee with regard to the Riccarton Community Centre, and their request that the 1968 and 1986 parts of the centre be made available for public use.
- 4.4 Jan McLauchlan and Bronwyn Goldshmidt addressed the Committee with regard to the Redcliffs Library Incorporated, and their request that the library be re-established at 91 Main Road, Redcliffs.

**5. BRIEFINGS**

Nil.

**PART C – DELEGATED DECISIONS**

**6. APOLOGIES**

It was **decided** that the apology from Councillor Peter Beck be accepted.

**7. HERITAGE GRANT APPROVAL – 28 NEW REGENT STREET, CHRISTCHURCH**

The Committee considered a report to obtain approval for a Heritage Incentive Grant for 28 New Regent Street, Christchurch.

The Committee **decided** to approve a Heritage Incentive Grant of up to \$8,578 for conservation and maintenance work for the Group 2 heritage building at 28 New Regent Street, subject to certification of compliance with the scope of works.

**COUNCIL 24. 4. 2013**

**Community, Recreation And Culture Committee 2. 4. 2013**

- 13 -

The meeting concluded at 12.23pm.

**CONSIDERED THIS 24TH DAY OF APRIL 2013**

**MAYOR**

Asset Group	No.	Projects	Comments
Community Facilities	1	Duvauchelle Community Hall (Banks Peninsula)	Critical asset for this community - little earthquake damage but failed DEE assessment due to age/design of building.
	2	Little Akaloa Community Hall (Banks Peninsula)	Critical asset for this community - little earthquake damage but failed DEE assessment due to age of building.
	3	Okains Bay Community Centre (Banks Peninsula)	Critical asset for this community - little earthquake damage but failed DEE assessment due to age of building.
	4	Woolston Creche	This building is open. Minor earthquake repairs are required to complete and finalise the insurance claim.
	5	Allandale Community Centre	Has suffered major damage - top priority for Community Board.
	6	Heathcote Community Centre	A very badly damaged building. Investigating options & awaiting response from Insurer.
	7	Hei Hei Community Centre	Key asset for this community - failed DEE assessment
	8	Wainoni Community Centre	Asset owner has requested investigation - possible site for transitional facility?
	9	Northbeach Community Creche	Passed DEE assessment but closed due to internal damage *(no ceiling). Relatively easy to scope, price and repair.
	10	Papanui Library	Ceiling grid not replaced, cost of heating and ventilation expensive. Very busy library.
	11	Lyttelton Library	Limited community facilities in Lyttelton. Interior propping concerns people and takes up space
	12	Parklands Library	Relatively simple repair to this building.
	13	New Brighton Library	Important community facility, some urgent work on the building has been completed.
	14	Shirley Library	HVAC system has EQ damage, important facility in this ward.
	15	Spreydon Library	Important facility - can be delayed to tranch 3
	16	Milton Street Depot	Citycare depot - Key operational asset
	17	Upper Riccarton Library	Timed to coincide with NON EQ work which is now required.
Recreation & Sport	18	Jellie Park (Plant Room)	Urgent work required to ensure the facility can remain operational
	19	Pioneer Leisure Centre	Floor resurfacing and other routine maintenance work is required to keep the facility in good operational condition - sports floors are sitting on EQ damaged piles that are likely to require replacement.
	20	Wharenui Pool & Rec Centre	Rec Centre/gym closed
	21	Sockburn Squash Centre	Commercial lease extended but due in 2017, multiple tenants use this facility (currently the regional home for squash "primary tenant"). The tenants are currently excluded from part of the site, primary tenant has a capital upgrade project plan but requires funding that is not yet secured.
	22	Wigram Gym	Club has funding and wants to upgrade facility - EQ repairs are delaying this
	23	Denton Oval	Commercial lease Temporary Facilities (showers) have been installed, tenant is currently excluded from significant parts of the site. Significant impact as this is the only Canterbury track cycling venue.
	24	Governors Bay Pool	Facility has a braced retaining wall impacting on the neighbouring private residence. Historic boundary/title issues precludes proper compensation being sought. Community pool is open however without proper Change room facilities. Community Lease agreement to operate is being established and requires rebuild direction
	25	Halswell Aquatic Centre	Asset owners desire to resolve the Plant room issues when the 2013 Halswell hub project is underway.
	26	Cuthberts Green softball complex	Commercial lease extended but due in 2013/14, tenant is currently excluded from part of the site, CCC & Tenant have a Capital upgrade project pending but required to support national and international events
	27	South Brighton Camp Ground	Commercial lease has lapsed, facilities are a mixture of CCC and tenant owned, the commercial business is open but significantly impacted by EQ damage, tenant is currently excluded from using over half of the site. CCC is providing almost 100% subsidy to tenant.
Greenspace	28	Hagley Park South - Implement Shed	A staff facility with equipment needed for staff to maintain Hagley Park
	29	Hagley Park North - Lake Albert Toilets	Very high use and right next to the Hagley events area creating significant activity during events
	30	Hagley Park North - Former RSA (now Petanque Club)	Insurance SOP finalised to allow demolition of unsafe building
	31	Linwood/Harewood Nurseries (21 buildings total)	Insurance SOP completion required to enable LTP construction (capital project) to progress without hold up.
	32	Spencer Park Beach Surf Club	Need final quantitative DEE.
	33	Avonhead Park Pavilion	Building is one of the more strategically important changing rooms in the City.
	34	Waltham Park Changing Rooms	High use sports park, requires the changing rooms open for use
	35	Coronation Hill Reserve - Sign of the Kiwi Toilets	Even with the SOK heritage buildings closed, the toilets at the top of the pass remain high in demand from passing walkers, cyclists and sightseers.
	36	Hagley Park South - Toilets near Hospital	Lower use but need open for school sports on Hagley Park
	37	Hagley Park North - Bandsman Memorial	Was used annually for band performances, the last band rotunda left the City following the demise of Edmonds band rotunda - has heritage value.
	38	Pioneer Women's Shelter	Strengthening options required - has heritage value and needs to be secured.
	39	Cressy Terrace Tennis Club Building	DEE over 34% but closed due to a very bad state of repair. Asset owner to tidy, paint and clean up ready for re-opening. Insurance claim can be settled.
	40	Demolition Pack 1	A number of small, old or badly damaged structures no longer required by the asset owner - could be investigated and packaged up for full Council demolition approval.
	41	South New Brighton Beach - Changing Sheds/Toilets	High usage from beach goers, especially during the Summer months.
Miscellaneous	42	R&R Sport/Penny Lane	Currently restricting traffic access around Colombo Street/Lichfield Street. CERA wish to reopen access. Part of the CCDU acquisition .

<b>DEE:</b> Level 5 assessments completed.	
<b>Update:</b> <ul style="list-style-type: none"><li>• Draft Sumner Master Plan public consultation period has closed</li><li>• Sumner Library demolition is now complete with the bare land fenced off.</li></ul>	
<b>Next Steps:</b> <ul style="list-style-type: none"><li>• The insurance Statement of Position (SOP) is still to be finalised but agreed in principal.</li><li>• Options for different transitional projects are being explored with the relevant Council units.</li></ul>	

## Bishopdale Library and Community Centre

**Building Status: CLOSED 4% NBS**

**DEE:** Lvl 5 October 2012  
Strengthening cost estimate to 34%, 67% & 100% completed June 2012

Costs to strengthen range from \$803,800-\$1,161,500 completed July 2012 – this excludes cosmetic repairs and damage to building services.

LAT approved repair estimate yet to be confirmed

Estimated cost to demolish and reinstate \$3,969,000

Total Sum Insured \$3,079,101

### Update:

- Council's insurers advise they have recently completed a Damage Assessment (DA) of the building. This report is yet to be released to Council.
- Strengthening options have been completed and priced, as above
- An access plan is being prepared to allow council to access the building and complete a full assessment of all EQ damage to the building
- Damage Assessment will be completed once engineers are satisfied that the risk of accessing the building are at a reasonable level.

### Next Steps:

1. Approve safe access design and arrange for propping works - Target access available by end of April
2. Undertake DA - 5 weeks from approved access. Target mid June
3. After 2) above issue Council Assessment of Position (AOP) then resolve the insurance Statement of Position (SOP)
4. Transitional solutions still being explored

<p><b>Scarborough Life Boat Building</b></p>	
<p><b>Building Status:</b> OPEN</p>	
<p><b>DEE:</b> L4 Qualitative 50% NBS (Final)</p>	
<p><b>Update:</b></p> <p>As the NBS value has come in over 34% it has been decided that at this stage no strengthening will be performed on this building.</p> <p>A level survey has been requested internally.</p>	
<p><b>Next Steps:</b></p> <p>Awaiting a full damage assessment.</p>	

<p><b>Sumner Surf Club Toilets</b></p>	
<p><b>Building Status:</b> <b>CLOSED (to be demolished)</b></p>	
<p><b>DEE:</b> N/A – N.B. Severely compromised</p>	
<p><b>Update:</b></p> <p>Insurers have approved demolition of the building and also confirmed that we will be insured for the replacement of the building. However, the final replacement cost still needs to be negotiated.</p> <p>The demolition of the toilet block was approved by the CRAC Committee 05/02/13 and also by Council on 28/02/13.</p> <p>CCC have received the demolition quote and plan to demolish the building in conjunction with the surf club building following the end of the surf life saving season. In the meantime the Sumner Surf Life Saving Club has been working with CCC on an appropriate design for the reinstatement of both buildings. The design is at a preliminary stage and has had its first and second pre-application meetings.</p> <p>The CCC Heritage team have removed the clock, bell and flag pole from the building and are safely storing them until the items can be to be reinstated into the new building.</p>	
<p><b>Next Steps:</b></p> <p>Finalise replacement cost with insurers. Organise demolition of both the surf club building and toilet block Continue to liaise with The Sumner Surf Club on the new design and getting the new design</p>	

Attachment TWO – Top 30 Project Update

through building consent.  
Review the Summer MasterPlan to ensure alignment with the views expressed in that planning exercise.

<p><b>Lyttelton Visitors Centre and Toilet</b></p>	
<p><b>Building Status:</b> Toilets Open, Main Building to be reopened March 2013</p>	
<p><b>DEE:</b> L5 DEE Finalised – 78% NBS</p>	
<p><b>Update:</b></p> <ul style="list-style-type: none"> <li>Public toilets now open and repairs are complete.</li> </ul> <p>CERA restricted access will remain in place for the rear yard of the building (fenced off) due to a retaining wall with no NBS number, this will <b>not restrict</b> the reopening of the visitors centre.</p>	
<p><b>Next Steps:</b></p> <ul style="list-style-type: none"> <li>Reopen main building.</li> <li>Continue with engineering solution to retaining wall issues behind the building.</li> </ul>	

<p><b>Botanic Gardens Glasshouses</b></p>	
<p><b>Building Status:</b> CLOSED</p>

Attachment TWO – Top 30 Project Update

**Next Steps:**

1. Complete “opening” steps to get Fernery House open by the end of the second quarter 2013
2. A Council Report will be prepared, target June, as soon as all key reports are complete and priced including betterment and maintenance estimates.
3. Settle insurance for all glass houses by first establishing and submitting the Council's AOP once DA's completed and input information into Council report – target June

**HERITAGE**

<p><b>Akaroa Gaiety Hall</b></p>	
<p><b>Building Status:</b> closed</p>	
<p><b>DEE:</b> 24%NBS</p>	
<p><b>Update:</b></p> <p>The building has suffered significant damage. The hall requires repair works that will require detailed design and consents. Further intrusive investigations have been undertaken.</p> <p>The project team focussing on opening for 2013/14 summer. Consideration was given to partially opening the main hall, but the results showed no cost/time advantage in doing this.</p> <p>Revised strengthening concepts and report have recently been issued by engineer. Strengthening estimates for 34%, 67% and 100% have been completed for this building. Recent intrusive investigations and subsequent report that have been completed for building structure have identified a substantial amount of non structural repairs to substructure areas and framing structure of building. Engineer has advised that although these repairs are non structural remediation will still be required to meet overall strengthening to building structure.</p>	
<p><b>Next Steps:</b></p> <p>The Engineers need to ensure building condition will meet strengthening requirements. Following this the CCC Heritage team will review the Strengthening concepts and make a recommendation, that can be taken to Council for approval</p>	

<p><b>Akaroa Service Centre</b></p>	
<p><b>Building Status:</b> CLOSED</p>	
<p><b>DEE:</b> 26%NBS</p>	
<p><b>Update:</b> Project team focussing on opening for 2013-2014 summer.</p> <p>Repair options have been developed and are being considered as part of a feasibility study.</p> <p>The feasibility study is currently being reviewed and the necessary documents prepared for the Insurer 'Statement of Position'.</p> <p>These documents are currently being reviewed by CCC Loss Adjusters, for submission to the Insurers</p>	
<p><b>Next Steps:</b></p> <p>Following receipt of a 'Statement of Position' from the Insurers, detailed design of the repair option will commence.</p>	

Attachment TWO – Top 30 Project Update

<p><b>Sign of the Kiwi</b></p>	
<p><b>Building Status:</b> CLOSED</p>	
<p><b>DEE:</b> 9.5%NBS</p>	
<p><b>Update:</b></p> <p>The building has suffered damage and will require significant works to reinstate. DEE assessment completed. Intrusive investigations to confirm suitability of repair solution have been completed.</p> <p>A reduced revised estimate has been submitted for proposed post tensioning option by contractor, an estimate has been submitted to the CCC heritage team to advise the preferred option to be put forward for council report.</p>	
<p><b>Next Steps:</b></p> <p>Maintenance, betterment and accessibility scopes and estimates still need to be finalised for this project.</p> <p>A Draft Project Summary Review Document has been developed and issued to staff for review.</p> <p>The next stage being preparation of Detailed Design, to enable the Insurer to issue a 'Statement of Position'.</p>	

<p><b>Canterbury Provincial Chambers</b></p>	
<p><b>Building Status:</b> CLOSED</p>	
<p><b>DEE:</b> Stabilisation underway before DEE assessment can be commenced.</p>	
<p><b>Update:</b></p> <p>Building is severely damaged. Potential land issues. Rebuild of significant portions of the building necessary. Reinstatement cost could be well in excess of insured amount.</p> <p>A revised stabilisation plan has been developed. This plan incorporates the remaining deconstruction and stabilisation works as a result of gaining access to damaged areas not previously available and further deterioration. Due to the extent of the revised stabilisation plan and engineering resources Insight Unlimited decided to stage the documentation allowing</p>	

Attachment TWO – Top 30 Project Update

work on site to commence at an earlier date.  
The sequence for the engineering documentation is the Stone Chamber, Timber Chamber followed by the SW corner of Bellamys.

This first and second stage stabilisation design has been approved through the RC process & Asset Owner. The protective roofs and walls to the Armagh St Safes and Durham St Safes are now included in the 1st stage application.

Stage two stabilisation design documentation covers the timber offices.

Stage three stabilisation designs will cover Belgian Beer Café & stage four will cover Bellamys.

Stage three stabilisation design & work are now complete.

Stage four detail design is underway.

The additional work has extended the project end date by seven months with a programmed completion date June 2013.

**Next Steps:**

Complete stabilisation.

Future repair strategy requires detailed consideration and consultation with CCC, DOC and NZHPT.

**Sign of the Takahe**

**Building Status:** CLOSED

**DEE:** 30%NBS

**Update:**

Intrusive investigations underway to confirm suitability of repair options. Further stabilisation works and weather proofing underway.

**Next Steps:**

The project is currently in the detailed design stage for the repair and strengthening option.

<p><b>Our City Otautahi</b></p>	
<p><b>Building Status:</b> CLOSED</p>	
<p><b>DEE:</b> too dangerous for internal inspections</p>	
<p><b>Update:</b></p> <p>Building is stabilised but severely damaged. Rebuild of significant portions of the building necessary. Reinstatement cost is well in excess of insured amount.</p> <p>Two options have been put to staff for review:</p> <ul style="list-style-type: none"> <li>• one being a traditional engineering strengthening solution to 67% NBS (not costed yet)</li> <li>• the other being a base isolation solution (estimated at \$10.5M)</li> </ul> <p>The insured value (\$5.8M) is not expected to cover either option, therefore it is expected that Council will meet the difference in the chosen repair strategy.</p>	
<p><b>Next Steps:</b></p> <p>The repair and strengthening options are being reviewed by staff, in preparation of a report to Council, recommending the option.</p>	

<p><b>Old Stone House</b></p>	
<p><b>Building Status:</b> CLOSED</p>	
<p><b>DEE:</b>          Quantative and Qualative) 10% NBS</p>	
<p><b>Update:</b></p> <p>The Old Stone house has had the following completed:</p> <ul style="list-style-type: none"> <li>• Accessibility report</li> <li>• Electrical report</li> <li>• Fire report</li> <li>• Chimney securing and stabilisation methodology</li> <li>• North Store securing and stabilisation methodology</li> <li>• Methodology for Mezzanine propping</li> <li>• Visual Geotech assessment of land damage</li> </ul>	

**Next Steps:**

- Propping (make safe) works for the Mezzanine floor
- Review strengthening options by Opus and recommend to the Heritage Team
- Prepare data for obtaining an SOP from the Insurers, with at least a progress payment to cover the Design of the repair option
- Detailed design of the repair
- Obtain an SOP for the Insurers for the (permanent) repairs
- Report to CRAC and Council
- Physical works

## Attachment 4 - Social Housing Programme Status Update

Date: 13 March 2013

### 1. Social Housing Portfolio Status

The Social Housing Programme's total portfolio of 2649 units was impacted with the announcement of the Residential Red Zone which designated 113 units (located in 5 housing complexes) to be closed.

As at 13 March 2013, 2196 units are open.

Closed units total 340 subject to repair under the Facilities Rebuild Programme and consist of the following:

- 271 units closed due to varying degrees of structural damage and design weakness, which includes 138 units closed due to failing a DEE assessment; and
- 69 units closed due to health & safety.

Subsequent to the last February 2013 report, an additional unit has been vacated and closed due to major damage at Fred Price Courts.

The notice of motion on Council Social Housing occupancy requirements passed at the 28 February 2013 Council Meeting has resulted in the lifting of 90 day closure notices (following engineering review) at the following units:

- Avonheath Courts - remaining 7 units to remain open until long term viability of complex is established
- Knightsbridge Lane - 17 units (full complex) to remain open with repair and strengthening options currently being evaluated

The 340 closed units do not include the remaining 7 units at Louisson Courts to be closed (vacated by 2 May 2013 under 90 day notice) due to failing their DEE assessment.

Refer to Appendix 1 for details of the individual closed units.

#### 1.1. Housing Wait List Status

As at 28 February 2013, there are 348 applicants on our waiting list consisting of 288 single applicants, 38 couples and 22 families. Twelve of these applications have been assessed as having urgent, immediate need.

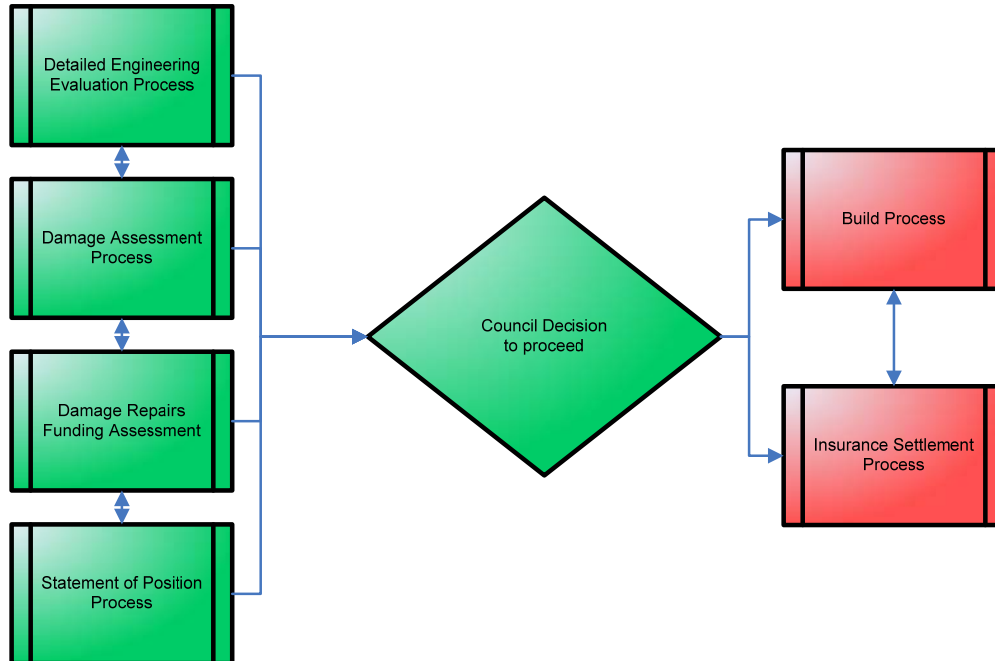

### 2. Social Housing Programme Repair/Reinstatement Strategy

The strategy adopted to restore the housing service levels consists of undertaking both closed unit repairs and new build intensification projects.

The housing repair strategy is to focus primarily on repairing and reinstating individual closed units to maximise housing stock and to minimise the numbers on the wait list, particularly those with urgent, immediate needs.

**2.1. Housing Repair Process**

The purpose of the social housing repair/reinstatement process (as shown in figure 1) is to assess each housing block of units within the complex as a whole and reach an agreed position with all parties (i.e. CCC/EQC/Insurer) before initiating repairs following Council approval.

[Figure 1] : Housing Repair Process

The first process stage is the Detailed Engineering Evaluation (DEE) process which provides engineering information into the damage assessment process and subsequent funding options process resulting in a statement of position. However, the primary driver behind the DEE process is the health and safety of the housing tenants with the approved prioritised approach to assess the most damaged occupied complexes first prior to those with lower levels of damage (refer Appendix 2 for Social Housing – Asset Repair Programme Summary). Whilst this approach has resulted in the damage assessment of complexes containing a high proportion of closed units, the severity of damage identified has been significant.

This has required substantial additional geotechnical and structural investigations with associated programme timing implications to determine the economic viability of repair or replacement at a housing complex level.

**2.1.1. Detailed Engineering Evaluation (DEE) Status**

The Social Housing Detailed Engineering Evaluation (DEE) process consists of 662 assessments. Since commencing in June 2012, 243 DEE's are being processed. This is made up of 145 DEE's completed and 98 DEE's underway as shown in figure 2. The DEE process is currently forecast to be complete by April 2014.

The DEE assessment process has been refined but the rate is limited by the availability of the specialised engineering resource in the marketplace.

Council staff are seeking to accelerate the remaining social housing DEE and damage assessments by combining the two processes on the remaining 65% of the housing portfolio. The remaining complexes typically consist of both simpler and

substantially similar housing designs in comparison to the initial 35% of the portfolio with their complicated and unique one-off designs. This will be achieved by selecting either a single supplier or two suppliers from the existing panel to provide a value solution due to economies of scale.

[Figure 2] : Social Housing Detailed Engineering Evaluation (DEE) Progress

In addition, Council staff have sought to quantify an emerging risk associated with the DEE process which is the future closure of complexes failing the DEE assessment based on the original building design and not due to earthquake damage. Council staff are now proactively seeking strengthening mitigations (where deemed cost effective) on a complex by complex basis in advance of the DEE process to avoid complex closures where possible.

**2.1.2. Damage Assessment (DA) Status**

The repair strategy to repair closed units first is driving the application of the damage assessment process. The DEE service provider for each individual complex is being used to assist with the costing of structural damage repairs in conjunction with cosmetic damage and common services assessments performed by City Care (under the existing Facilities Maintenance Contract).

In parallel, an accelerated joint damage assessment process with EQC is being trialled on four initial housing complexes containing significant structural damage (i.e. \$100k overcap units) with EQC settlement anticipated to be concluded in March 2013.

The four housing complexes are as follows:

- Avonheath Courts (10 closed units out of 17 units total)
- Brougham Village (83 closed units out of 89 units total)
- Concord Place (8 closed units out of 52 units total)
- Louisson Courts (6 closed units out of 13 units total)

Settlement with the Insurer will then occur followed by a Council decision on the economic viability of repair versus replacement. By this stage, DEEs on the lesser damaged complexes will start being finalised with associated damage assessments followed by initiation of repairs.

### **2.1.3. Social Housing Repairs Status**

The repair strategy is primarily focussed on repairing and reinstating individual closed units to maximise housing stock. An initial portfolio review identified only six units with minimal structural damage and these “best of the worst” closed units were repaired and reopened prior to the end of January 2013.

The remaining closed units contain varying levels of structural damage and the project team has now commenced the repair process on the following complexes (forming part of Work Package 1):

- Airedale Courts (71 units closed out of 115 units total)
- Knightsbridge Lane (17 units to be closed out of 17 units total)
- Lyn Christie Place (2 units closed out of 30 units total)
- Thurso Street (2 units closed out of 4 units total)
- Whakahoia Village (5 units closed out of 20 units total)

Refer to figure 3 which summarises the Social Housing Asset Renewal and Repair Programme status as at 13 March 2013.

The initial unit repairs lessons learnt is that it is not practical or efficient to target individual closed unit repairs but instead to adopt a repair strategy for the whole complex (i.e. fix and forget). On this basis, the currently open unit repairs associated with the above complexes will follow immediately after closed unit repairs are complete.

The Project team has committed to completing the repairs of 70 closed units by 21 December 2013.

#### **2.1.3.1. Low Value Repairs Programme**

Current EQC assessments of damage indicate that there are 167 units with no damage which are currently being verified by Council staff. In addition, 109 units have been repaired and redecorated immediately after they have been vacated due to natural tenancy turnover. Currently, there are a total of 1920 open units yet to undergo earthquake repairs and it is estimated that 1781 of these units will require low value cosmetic repairs (i.e. those with minimal structural damage).

Council staff have implemented a secondary work stream consisting of a low value repairs programme on the remaining open units to minimise and/or avoid Council exposure to the escalating labour and material costs subsequent to the EQC damage assessments. This programme of work will commence initially on the complexes that have passed their DEEs assessments (i.e. %NBS  $\geq$  34%) and will not dilute the primary focus on repairing and reopening closed units.

This programme of work is committed to repairing 102 open units by 21 December 2013 and is also targeting the repairs of a further 100 open units, which is the subject of a Report to Council on 28 March 2013.

**Social Housing Asset Renewal & Repair Programme Status  
(as at 13 March 2013)**

[Figure 3] : Social Housing Asset Renewal & Repair Programme Status (13 March 2013)

## **2.2. Housing Intensification Projects**

Due to the scale and severity of the damage associated with the majority of closed units, an alternative strategy to aid in the restoration of service level is the intensification of existing sites with the construction of additional units.

Six existing housing complexes have been identified as potential intensification sites and DEEs have been initiated on these complexes to provide early identification of potential ground condition issues. Preliminary concept designs have also been prepared for all six sites.

A subsequent prioritisation assessment of the six sites has identified three “infill” type projects, which are as follows:

- Maurice Carter Courts (Dundee Place) – 12 Units
- Knightsbridge Lane – 10 Units
- Andrews Crescent (number of new units under assessment)

A Council report has been prepared for the Maurice Carter Courts & Knightsbridge Lane Intensification Projects for CRAC Committee Review and Council Approval at the 28 March 2013 meeting. Subject to Council approval, it is anticipated that these two projects will be completed by the end of the 2013 calendar year.

Council have a total of 113 units on residential Red Zoned land with a combined CV of \$15.47M and are awaiting a formal response from CERA regarding a purchase offer which will be used to fund the future intensification projects.

In addition, partnership options are also being actively investigated. A Council report looking at acceleration options for the Social Housing programme includes information on the Expression of Interest (EOI) process to select potential public/private partnerships to investigate housing development options utilising council land. It is anticipated that the partnership EOI will go to the market on 18 March 2013.

## **International Relations Policy**

### **Principles**

1. Christchurch City's international relationships will contribute to achieving the City's Community Outcomes and the Council's Strategic Directions. Particular emphasis will be given to the following Outcomes:
  - A Prosperous City - International investment, best practice, and technology and long term educational opportunity can be leveraged through well founded, formalised relationships.
  - A City of Inclusive and Diverse Communities - Our international connections will bring cultural performing groups to the city, generate opportunity to learn about cultures, share cultural experiences and assist local people to understand the diverse needs of the various groups both visiting and living in our community.
  - A City of Lifelong Learning - Internationalisation will bring opportunity for best practice learning and international education exchange.
2. The City will pursue a range of relationships to ensure opportunities are maximised. Five different types of relationships have been identified that allow for different outcomes, management processes, resource commitments, and review processes and help clarify expectations.
3. Any relationships Christchurch enters into will be well researched to ensure there is:
  - A fit with the Community Outcomes, Council's Strategic Directions, CREDS (Canterbury Regional Economic Development Strategy) and Prosperous Christchurch, and other Council policies and strategies
  - A fit with Government foreign and economic development policy
  - Easy access in both a geographical and political sense
  - Equal commitment from both parties to agreed objectives
  - A business plan with measurable objectives
4. Christchurch will be proactive in prospecting for new relationships, as well as responding to approaches. Existing protocols and international connections should be used to leverage new and extended opportunities for Christchurch. (Examples include the Colombo Plan and the Mayors for Peace Network.)
5. Relationships will only be entered into if they are sustainable over the agreed period. Resource commitment is crucial to ensuring sustainability.
6. Review periods will be incorporated into all new relationships, with an opportunity to exit the relationship should it no longer meet its objectives.
7. Appropriate management processes for international relationships will be established. Existing sister city relationships will continue to be managed by the Sister City Committees, with project seed funding provided through annual Council grants. Some cultural and social relationships, such as Mayors for Peace activity and relationships, will be managed by the Council, in close association with the appropriate community associations. Economically focussed relationships will be managed jointly by Christchurch City Council and the Canterbury Development Corporation, in collaboration with private and public organisations. Economic opportunities identified within existing Sister City relationships should be advised to the Canterbury Development Corporation.

### **Links**

1. The International Relations Policy Statement links to the following Strategic Directions of the Council:

## Community, Recreation and Culture Committee 2. 4. 2013

### Prosperous Economy

Goal 1: *Develop business and other links to promote economic development that is consistent with the needs of Christchurch's people and environment, by*

- (i) strengthening international civic relationships to provide positive business links
- (ii) taking part in national economic initiatives
- (iii) helping businesses in key industries to work together to become more internationally competitive

### Strong Communities

Goal 7: *Celebrate and promote Christchurch's identity, cultures and diversity, by*

- (i) providing and supporting a range of arts, festivals and events
- (ii) supporting cultural groups and organisations

2. The International Relations Policy Statement links to the following Community Outcomes:

- (i) a Prosperous City
- (ii) a City of Lifelong Learning
- (iii) a City of Inclusive and Diverse Communities

3. The International Relations Policy Statement links to the Canterbury Regional Economic Development Strategy (CREDS) which outlines city, regional, national and international partnerships. Two high level goals identified within CREDS are:

- To develop and maintain an enterprise culture that promotes investment, growth and innovation
- To become increasingly globally competitive and connected into world markets

4. The International Relations Policy Statement links to the New Zealand Government's 2002 Growth and Innovation Framework which signals a continuing focus on increasing global connectedness as a central driver of economic growth.

5. The International Relations Policy Statement links to Immigration New Zealand's initiative focussing on bringing skilled expatriates back to New Zealand. The key focus of the initiative is:

- To link with the existing range of government and private sector organisations, such as "Kiwi Expatriates Abroad" (KEA) to provide direct links to internationally based networks to profile opportunities for expatriates in New Zealand.

### Types of Relationships

Five types of relationships will be entered into, allowing for a range of objectives, management and review processes, and resource commitments.

Type of Relationship	Description of Activity
<b>Formal City-to-City Relationships</b>	
Strategic Partnership	Strategic partnerships may operate external to the Council but must fit with the Community Outcomes and Strategic Directions. It is likely a strategic partnership will contain a preponderance of proposed activity dedicated to commerce, education and access to markets and capital and only a small amount of activity in the arts, culture, sport and community awareness/support areas. Example: Christchurch – Wuhan relationship.
Sister City Relationship	Sister City relationships will be developed with cities where there are diverse linkages in the areas of culture, education, and business. These relationships will be long term and have the support and commitment of the community. Formalised by Council agreement, they will be managed locally by a community committee, and supported by Council resource at both ends of the relationship. Examples: Seattle, Songpa, Gansu, Adelaide and Kurashiki.

## Community, Recreation and Culture Committee 2. 4. 2013

Friendship City Relationship	These relationships will have limited activity, in the areas of education, arts, culture, and sport and community awareness/support. A Friendship City relationship could be reclassified should activity increase. Friendship City status can be either a starting point for a new relationship or a 'parking point' for a non-active existing relationship.
Informal City-to-City Relationships	
Best Practice Relationship	Best practice relationships will be resourced and managed by the Council. They will incorporate partners from the community, where appropriate. These relationships will be project based and will usually be medium term. Best practice relationships may exist between cities that are otherwise not connected in any way. Example: Brisbane City, which offers infrastructural development expertise.
Special Relationship	Special relationships will provide the opportunity for linkages between communities with a special interest area or activity. These relationships will exist under the auspices of the Council but could be delegated to outside organisations or associations if this is deemed appropriate. Examples: aid relationships, Mayors for Peace relationships and project-specific relationships.

The names of the above relationships are New Zealand terminology. Some countries use different terminology to explain the significance of a relationship. For example, in China a Sister City relationship receives the highest level of support. In England a Twin City relationship is the equivalent of a New Zealand Sister City relationship.

### Policy Review

The Christchurch City Council International Relations Policy Statement will be reviewed on or before January 2009.

Christchurch City Council  
December 2005

## Strategy for Sister Cities

### Vision

Christchurch will continually enhance the quality of life of its citizens and understanding of diverse cultures from around the world through proactive (citizen) Sister City relationships.

### Objectives

The following objectives for Sister Cities will assist committees meet this vision:

- To promote relationships between the people of Christchurch and the people of its Sister Cities.
- To continue to increase international understanding and opportunities for wider reaching relationships through the promotion of our Sister Cities in Christchurch.
- To involve a range of community groups including (but not limited to) schools and other focus interest groups, and where appropriate local business under the auspices of key business facilitators.
- To promote Christchurch as a city welcoming tourism and visitation and international economic development.

### Implementation

- Each Sister City Committee will include in its membership a minimum of one and a maximum of two elected members.
- Each Sister City Committee will review its membership annually.
- Each Sister City Committee will receive a minimum annual grant of \$3,000 to enable them to manage their relationships.
- Sister City Committees will provide an annual plan and programme of activities with budget allocations defined, within the annual plan process of Council each year. Additional funding, in the form of grants, will be considered based on the annual plan.
- An annual report using a standard format is provided to Council at the end of each financial year.
- A longer-term review of each relationship will be carried out every three years commencing 2003.
- International Relations Co-ordinators will oversee and service the committees and Council will provide free of charge a venue for each Sister City Committee meeting.

### Scope for the future

The consideration of new Sister City relationships should be made on the basis of near equal distribution of resource, personal interest and economic development opportunity into the areas of:

- Education/arts/culture/sport - 35 per cent
- Commerce/investment of capital - 35 per cent
- Personal fulfilment, community awareness/support - 30 per cent.

Existing relationships will be assessed against criteria for new relationships but, given the inconsistency in rationale for their selection, they must also be assessed in relation to the objectives for Sister Cities agreed by the Council.

Sister City relationships can develop from, or be re-classified to become:

- Friendship cities
- Special relationships
- Strategic partnerships.

Future location of Sister Cities and alternative types of relationships should be considered in line with Central Government and regional initiatives in relation to international trade, immigration and education exchange. Consideration to ease of access to any future Sister City, and the volunteer support base in the community must also be given.

All future relationships must contain short and long-term review clauses and a mutually agreeable sunset clause.

**HERITAGE ASSESSMENT – STATEMENT OF SIGNIFICANCE**  
***NEW REGENT STREET SHOPS -***  
**NEW REGENT STREET**

**PHOTOS: NEW REGENT STREET – c2010**

The *New Regent Street shops* are listed as a Group 2 Protected Heritage Place in the Christchurch City Plan, and are registered as a Category I Historic Place by the New Zealand Historic Places Trust Pouhere Taonga.

### **HISTORICAL AND SOCIAL SIGNIFICANCE**

New Regent Street has social and historical significance as it was the forerunner of the present day shopping mall. At the time of its construction the concept of an entire street made up of small speciality shops was novel for New Zealand. The building work took place between 1930-32 and was one of the few large scale building projects undertaken in the South Island during the Depression. New Regent Street occupies the site of the old Colosseum, a building designed by Thomas Cane in the 1880s and demolished in 1930. On 1 April 1932 New Regent Street was opened by the Mayor of Christchurch, Mr D.G. Sullivan. Of the 40 shops offered for lease, only three were let owing to the economic depression of the time. To encourage occupancy, New Regent Street Ltd. decided to lease the remainder free of charge until businesses became established, and then at a nominal rent of five shillings a week.

### **ARCHITECTURAL AND AESTHETIC SIGNIFICANCE**

New Regent Street has architectural and aesthetic significance because of the architect Henry Francis Willis (1892-1972) and the actual design of the Street. The 40 shops on individual titles were designed in the Spanish Mission Revival style by Henry Francis Willis in 1930. Willis also designed the State Picture Theatre (1934-5), Santa Barbara on Victoria Street and the Repertory Theatre (formerly Radiant Hall, 1929); the latter being similar in style to New Regent Street's terraces. The contractors were P. Graham and Sons Ltd, who had previously built Christchurch Boys' High School and the Majestic theatre.

The windows and ornamentation of the first floor establishes the Spanish Mission character and unique appearance of New Regent Street, and there are three upper storey variations. The first contains three round headed/arched windows with profiles recalling classical Palladian style, supported by small columns with spiral motif, above which sits an oval medallion. These facades have an awning extending above the windows and supported by

COMMUNITY, RECREATION AND CULTURE COMMITTEE 2. 4. 2013**

decorative wrought iron brackets. Originally these awnings were covered with Spanish style Cordova roof tiles; they were later removed leaving just the concrete slabs.

Alternating on either side of these properties are two similar styled facades, both with Spanish Mission style parapets of similar elevation and the shaped gables commonly found on Spanish Mission style buildings. The first of these has centrally placed double casement windows with a window box beneath, the Palladian window motif as before, and circular medallions set within the gable. In the second the central window is replaced by French doors leading onto a small balcony and the gable is decorated with a pair of heraldic shields. The central windows of both are surmounted by projecting arched mouldings over semi-circular fan light windows with panes arranged in a sunburst form. Additional ornamentation separates each facade with decorative art deco chevrons and Spanish Mission style barley twist columns.

Originally the large display windows facing the street were surrounded by decorative coloured floral tiles, many of which still remain. Wide plate glass windows beneath the verandah light each shop, and entry is through a glazed door set back from the street beside the entrance to the adjoining shop. This continuous suspended verandah runs the length of the terraces and extends around into Gloucester Street. In 1968 the buildings were repainted in Adam Gold, Etruscan Red and Slate Blue; the existing colour scheme dates from 1994.

### **TECHNOLOGICAL AND CRAFTSMANSHIP SIGNIFICANCE**

The New Regent Street shops have technological and craftsmanship significance due to their design and method of construction. The shops are structurally based on an exposed concrete frame with infill panels of cavity brick, the facades of which have been plastered and painted; extensive steelwork is also used along the entire length of the Street. Weep holes at the base of the cavity were designed to allow water soaking down from the parapets to drain. All underground services were through the rights-of-ways behind the shops. Ventilation, interior lighting and floodlighting were an acclaimed feature of the street at the time of its opening.

### **CONTEXTUAL SIGNIFICANCE**

New Regent Street is contextually significant because of its streetscape value including the uniformity of design, form, colour and scale of all 40 shops. New Regent Street continued to evolve; after World War Two it became a public road, and in 1986 it was made a one-way street. In 1994 the street became a pedestrian mall and the tram line was installed. At this time the cobblestone paving, wrought iron railings, planter beds and period lighting we see in the streetscape of today were introduced.

### **ARCHAEOLOGICAL SIGNIFICANCE**

New Regent Street as a post-1900 site has a degree of archaeological significance because of the potential to provide archaeological evidence relating to past building construction methods and materials, and human activity on this site. It is also known that it was the location of the old Colosseum prior to 1900.
