Review the size of the zoning area being covered & looked at.

Reasons for my submission:

I feel that the area being proposed to increase residential medium density zoning is too large an area.

There appears no consideration to the effects on local schooling at primary, intermediate & secondary level, effects on parking in the area & congestion on main roads & use of facilities.

& This area is popular for families to live in and ~~was~~ could potentially increase demands for schools in the area that are already at capacity.

The area highlighted are already medium sized sections. Would increase property prices & no doubt rates increase long term.

The decision I seek is that the proposal: (please tick)

☐ Be retained

☐ Be deleted

☒ Be amended as follows (you must specify your amended wording):

Two Storey Buildings must not be allowed in St James Ave. Sun light will be reduced if that is allowed.
The relaxing of the rules will allow money hungry Property developers to permanently destroy the true significance of our beautiful street which has been historically declared to be a permanent memorial to the armed servicemen who lived in this area and left their families to fight overseas and who never returned.

Reasons for my submission:

While I can understand the need to allow more housing in Christchurch a greater regard must be given to retaining the environment, trees, birds etc in our street. Vehicle parking in St James Ave during the day is difficult now. A greater volume of traffic already pass through St James Ave, with more parking accommodation in this street there would be no vehicle parking for visitors.
Too many motorbikes park too close to the corner at the "T" intersection of Dalmeida St / St James Ave. PLEASE ARRANGE FOR "NO PARKING" YELLOW LINES TO BE PAINTED ON BOTH CORNERS AT THAT INTERSECTION.

The market garden area currently being developed between Cranford St and Paparoa School be considered for the higher density as an alternative with a concurrent reduction in the ~~two~~ three amended areas proposed, particularly the two proposed off Papanui Rd.

Reasons for my submission:

The new area being developed could be zoned high density without disrupting existing neighbourhoods and it would meet the criteria of parks, access to buses etc. Currently Papanui Rd & the main North Rd are extremely congested and increasing density here will exacerbate the problem. Also the Papanui Rd to Paparoa/Cranford Rd area will increase traffic flow through Mary Street. This is already diabolical.
