<b>Chapter 6 – General Rules and Processes</b>						
1.	1603	Canterbury Earthquake Recovery Authority	The submitter requests that further opportunities be provided for workers' temporary accommodation activities to establish as permitted activities in brownfield sites and former brownfield sites now zoned residential currently undeveloped for residential land use, such as the former sale yard site.	Support	Global Edge notes that the sites identified by the submitter have capacity to absorb the effects of temporary development in a manner similar to the zones in which workers' temporary accommodation is permitted. As such Global Edge considers permitted activity status for these sites is appropriate. Global Edge considers that the establishment of workers' temporary accommodation as a permitted activity on the sites identified by the submitter is consistent with Objective 3.3.15(a) of the Strategic Directions decision and will assist in ensuring such development is expeditiously enabled.	Allow the relief sought.
