

Christchurch City Council Outcomes and Burwood/Pegasus Community Board Draft Objectives

Overall the community outcomes for Christchurch are:

Sustainable Christchurch

- a city with a sustainable natural environment
- a learning city
- a prosperous city
- a well governed city

and a city

- with inclusive and diverse communities, that have a strong sense of place and identity
- with healthy and active people
- which is safe
- which is cultural and fun
- which is liveable

The following tables provide details for each outcome taken from the Our Community Plan Christchurch O-Tautahi 2004/14. "The "Outcomes" column provides more detail on the outcome itself. "Challenges and Opportunities" describe the challenges and opportunities the City has for better achieving the outcome. "Council Activity Groups " describe the groups of activities the Council will provide in support of the outcome. The "Key Indicators" column identifies the kinds of indicators that will be used to measure progress towards achieving the outcomes".

The final column headed Burwood/Pegasus indicates the specific objectives of the Burwood/Pegasus Community Board towards achieving the Council's outcomes relevant to its Wards

A Sustainable Natural Environment

Christchurch City Council			Burwood/Pegasus Community Board
Outcomes	Challenges and Opportunities	Key Indicators	Objectives 2005/06
<ul style="list-style-type: none"> • Our people enjoy and value our natural environment and take responsibility for protecting and restoring it. • Our City's natural resources, biodiversity, landscapes, and ecosystem integrity are protected and enhanced. 	<ul style="list-style-type: none"> • Reducing what we take from the earth • Waste minimisation • Protection of the natural environment <p>Council Activity Groups:</p> <ul style="list-style-type: none"> • City Development • Parks and Open Spaces • Refuse Minimisation and Disposal • Regulatory Services • Sewage Treatment and Disposal • Streets and Transport • Water Supply • Waterways and Land Drainage 	<ul style="list-style-type: none"> • Soil and water quality • Solid waste management and recycling • Climate change 	<ol style="list-style-type: none"> 1. Promote sustainability and recycling principles to the community. 2. Promote appropriate planting in seaside environments and sandy soils, and a variety of plantings across the Board area in consultation with local residents in accordance with the Council's Policies and Strategies. 3. Raise awareness of the need for building standards to reduce risks of liquefaction, flooding, wind, and tsunami. 4. Assess viability of possible Living Streets projects. 5. As streets are upgraded appropriate landscaping is included. 6. Plan for monitoring of the impacts of the wastewater ocean outfall pipeline on the adjacent community and environment. 7.
