The Council **could not** gain an advantage in **trade competition** through this submission.

This submission relates to **all six proposals and to all provisions** within those proposals.

The decision sought by Christchurch City Council is that the provisions of the proposals be amended to ensure they are consistent with the terminology used and/or to be used in other parts of the Replacement District Plan that the temporary earthquake recovery activities provisions refer to.

The reason for the Council's submission is to ensure that the provisions can be appropriately applied to temporary earthquake recovery activities and to ensure the Replacement District Plan is coherent and consistent.

The Council **wishes to be heard** in support of its submission.
