

IN THE MATTER OF the Canterbury Earthquake
(Christchurch Replacement District Plan)
Order 2014

AND

IN THE MATTER OF An application to correct a minor error
pursuant to clause 13(5) and 13(6) and clause
16(2) to Schedule 3 of the Order

Date: 22 October 2015

**DECISION
TO MAKE MINOR CORRECTIONS
TO DECISION ON TEMPORARY ACTIVITIES (DECISION 9)**

Background

[1] The Hearings Panel (the Panel) issued its decision on Temporary Activities 6A, 6B and 6C ('Decision 9') on 3 September 2015. By the time of the hearing the Council and submitters were in agreement. The Council supplied the Panel with a new version of the provisions that reflected that agreement. Changes to the notified proposals made by our decision were attached as Schedule 1 ('Decision Version 1'). Decision 9 included minor amendments to our Decision 2 on Temporary Activity Related to Earthquake Recovery, which were attached as Schedule 1A ('Decision Version 1A') to Decision 9.

[2] Counsel for the Christchurch City Council ('the Council'), a submitter and the proponent of these proposals for the replacement district plan, filed a memorandum on 7 October 2015 requesting the Hearings Panel to make a number of minor corrections to Decision Version 1 and 1A, and one correction to paragraph 7 of Decision 9 text. We note Decision Version 1 and 1A reflected the agreed revised provisions put forward by the parties, and as such the errors were made by the Council, rather than by our decision. We return to this later.

Jurisdiction to make minor corrections

[3] Clause 16 of Schedule 3 to the Canterbury Earthquake (Christchurch Replacement District Plan) Order 2014 ('OIC') provides as follows:

- (1) The hearings panel may, at any time, issue an amendment to a decision to correct a minor mistake or defect in a decision of the panel.
- (2) This power includes the power to amend or correct a proposal, provided that the amendment or correction is made before the proposal becomes operative in accordance with clause 16 of this order.

[4] Further, clause 13(5) and 13(6) of the OIC provides as follows:

- (5) While the hearings panel is considering a proposal, it may reconsider any decision it has already made on another proposal if it considers it is necessary or desirable to do so to ensure that the replacement district plan is coherent and consistent.
- (6) If the hearings panel considers, after reconsidering a decision under subclause (5), that an earlier proposal or a part of the replacement district plan requires change, the panel may direct the council—
 - (a) to make changes of no more than minor effect; or
 - (b) to prepare and notify a new proposal, and invite submissions on the new proposal in accordance with Schedule 1.

[5] The memorandum sets out the reasons for the request and statutory basis for making the changes pursuant to the above clauses and explained the statutory context of the provision with reference to similar provisions in the RMA and relevant case law.¹²

[6] The memorandum notes that the use of 16(2) may be:

read in a manner that prevents the Hearings Panel from using Clause 16 power to amend or correct a proposal that has become operative in accordance with clause 16 of the OIC (as the provisions of Decision 2 are now operative).

[7] The Council submits that if clause 16(2) is not available to correct Decision 1A, then alternative clauses 13(5) and 13(6) of the OIC may provide the jurisdiction to make further minor corrections to Decision 2.

¹ Memorandum of Counsel for the Council at para 29-30, including reference to *Re an application by the Christchurch City Council* (1996) NZEnvC 97.

² Memorandum of Counsel for the Council requesting corrections to Decision 9 including schedules 1 and 1A (which incorporates changes to Decision 2).

[8] We accept that minor corrections to Decision Version 1 are warranted, and that clause 16(2) provides the power for us to make those corrections. We also accept that the changes sought to Decision Version 1A are appropriate under either clause 16(2) of schedule 3 or clause 13(5) and (6) of the OIC.

[9] Although we agree the drafting of clause 16(2) does not expressly apply to a correction to an operative proposal, in this case the Decision Version 1A changes came about through exercising our powers to reconsider an earlier decision. As such Decision 1A was essentially returned to a non-operative state. In any event we agree with the Council that clauses 13(5) and (6) would seem to apply. We are satisfied that we do have jurisdiction to make minor corrections to Decision Version 1A. We address the changes in turn.

Reasons for the correction

[10] The memorandum sets out the requested corrections, which include an amendment to paragraph 7 of Decision 9, and corrections to both Decision Version 1 and 1A. Tracked change versions were provided. We do not repeat those matters in full here.³

Decision

[11] With respect to changes sought under Clause 16, the memorandum states:

The corrections sought are simply to rectify mistakes or inaccuracies or to assist users with navigating the plan, rather than the substance of the affected provisions.

[12] We accept the minor corrections sought to Decision Version 1 are appropriate and will assist users with navigating the plan, we therefore direct changes using our powers under Clause 16 of Schedule 3 to the OIC in relation to:

- (a) Replacing references to 'Clause' with 'Rule';
- (b) Removing notes referring to the Definitions Chapter;

³ Memorandum of Counsel for the Council at para 8-27.

- (c) Insertion of the amended planning maps showing Orion’s electricity distribution lines, as attached to the evidence of Mr Eman for the Council, dated 12 June 2015; and
- (d) Correction of minor errors, as identified in paragraph 17 of the memorandum.⁴

[13] We note several minor errors with the corrections identified by the Council which we also correct.

[14] Attachment A and Attachment B to Council’s memorandum introduced zone “groups” to make it clear which set of rules (6.4.2 or 6.4.3) apply to a particular zone. We note the Residential New Neighbourhood Zone was included by the Council in both 6.4.2 and 6.4.3 (P2, P6 and P7), but only shown in ‘Group 1’, relating to 6.4.2. However, temporary earthquake recovery provisions relating to the Residential New Neighbourhood Zone were notified as part of the proposals subject to Decision 9. Accordingly, we have removed reference to the Residential New Neighbourhood Zones in Decision 2 (6.4.2) and ‘Group 1’, and added this zone to ‘Group 2’.

[15] Papakainga is not included in the ‘groups’ but is referred to in Rule 6.4.3 (P2 and P6) in Decision 9. For clarity we have added Papakainga to ‘Group 2’.

[16] With respect to the Council’s request to amend paragraph 7 of Decision 9, we accept that there are parts of the operative plan that need replaced. As a result we amend paragraph 7 of our decision as outlined in Attachment A.

[17] We also accept that the minor corrections requested to Decision Version 1A are of no more than minor effect and appropriate. We direct changes to Decision Version 1A using our powers under Clause 16 of Schedule 3 and/or clause 13(5) and (6) to the OIC in relation to:

- (a) Removal of italicised text, as detailed in paragraphs 18 - 23 of the memorandum;
- (b) Clarification of zones to which the different rules apply, as detailed in paragraphs 24 - 26 of the memorandum; and

⁴ As set out in Attachment A to the memorandum of Counsel.

- (c) Other minor corrections sought to Decision Version 1A as detailed in paragraph 27 of the memorandum, except for the changes we make outlined in paragraphs [14] and [15] above.

[18] The Council requests Commercial Retail Park be altered from italicised to un-italicised in P3 (6.4.2) in Decision 2. This zone was mistakenly italicised by the Council at notification, with text indicating it was being reviewed in Phase 2 of the District Plan review. However the Commercial Retail Park Zone was notified as part of Stage 1.

[19] No parties submitted with specific regard to this zone in either of the temporary activity proposals. We also note that this zone was clearly identified in the maps and provisions within the Commercial Chapter as being part of Stage 1. On that basis we accept the change is clearly an error in Council's notified proposal that has carried over into the decision. We consider this to be minor in nature, and we are satisfied that the request does not directly affect any submitters.

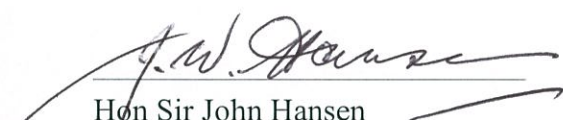

[20] While accepting the minor corrections put forward by the Council, except as otherwise amended by this decision, as stated, Decision Version 1 and 1A reflected the agreed revised provisions put forward by the parties. The corrections sought by the Council are a direct result of Council's own drafting errors, and once again points to a lack of quality control. The Council had opportunity to correct and modify the provisions, as has now been presented, prior to appending them to the evidence of Mr Eman and presenting them to the Panel. In fact every indication was that this would be done.⁵

[21] It is also disappointing that the Council waited until 7 October, one day before the close of the appeal period, to raise these with the Panel. We expect the Council to provide greater assistance to the Panel going forward.

[22] Accordingly we direct the minor corrections requested by the Council, and those identified at paragraphs [14] and [15] above, be made as set out in the corrected Decision Version 1 and 1A marked Attachment B and C respectively.

⁵ Memorandum of Counsel for Temporary Earthquake Recovery Activity Proposals for Pre Hearing Meeting, dated 5 May 2015; and Statement of Issues Temporary Earthquake Recovery Activity Proposals, dated 13 May 2015

For the Hearings Panel:

Hon Sir John Hansen
Chair

Ms Sarah Dawson
Panel Member

Ms Jane Huria
Panel Member

ATTACHMENT A

~~[7] As for our first decision relating to temporary earthquake recovery activities (Decision 2), there are no equivalent provisions contained in the Operative Plan for the proposal as notified. As such there are no provisions in the Operative Plan that are required to be identified for replacement. Notwithstanding this, this decision does make minor amendments to our Decision 2, as set out in Schedule 1A.~~

[7] The OIC requires that our decision identify the parts of the existing district plans that are to be replaced. Accordingly, on the day that the proposal is made operative, it shall replace the similar provisions for workers' temporary accommodation that were introduced into the Operative City Plan by the Minister for Canterbury Earthquake Recovery under the Canterbury Earthquake Recovery Act 2011. Our decision also makes minor amendments to our Decision 2, as set out in Schedule 1A. The parts of the existing district plans that are to be replaced are:

- (a) Volume 3, Part 9, Section 9 (excluding Rule 9.1) of the Operative Christchurch City Plan; and
- (b) Chapter 41 (excluding Issue, Objective, and Policy 1 and Rule 41.1) of the Operative Banks Peninsula District Plan.

ATTACHMENT B

Change Proposal 2 by amending the definitions in Chapter 2 Definitions as follows:

Multi-unit development - add the following Definition:

Multi-unit development

means:

for the purposes of the policies and rules for Workers' Temporary Accommodation, "multi-unit development" means a group of two or more residential units to be established and used for the purpose of workers' temporary accommodation.

Change Proposals 6A(i), 6B(i) and 6C(i) - Chapter 6 General Rules and Procedures; and Proposals 6A(ii), 6B(ii) and 6C(ii) - Chapter 13 Central City, as follows:

PROPOSAL 6A(i)

6.4 Temporary earthquake recovery activities

6.4.1 Objectives and Policies

6.4.1.1 Objective

Refer to Strategic Directions Chapter 3.3.15 Objective — Temporary recovery activities.

6.4.1.1.1 Policy — Temporary displaced activities, storage facilities and construction depots

- a. Enable earthquake related displaced activities, storage facilities and construction depots in temporary locations until 30 April 2018, while managing significant adverse effects.
- b. To provide for earthquake related displaced activities, storage facilities and construction depots in temporary locations for an additional transitional period taking into account the matters in Objective 3.3.15(b), assessed on a case by case basis, or until 30 April 2022 in the case of displaced education activities on zoned tertiary education sites.

6.4.1.1.2 Policy — Temporary lifting or moving of buildings

- a. Enable some temporary infringement of built form standards to facilitate the timely completion of repairs to earthquake damaged buildings, whilst protecting significant features.

6.4.1.1.3 Policy — Workers' Temporary Accommodation

- a. Provide for workers' accommodation in temporary locations until 31 December 2022 through the:
 - i. temporary use of permanent buildings in appropriate areas
 - ii. temporary conversion of permanent buildings in appropriate areas
 - iii. establishment and use of temporary accommodation units, including multi-unit developments, in appropriate areas,while managing significant adverse effects.

6.4.3 Rules —Displaced activities, storage facilities and construction depots in Group 2 Zones (excludes the Central City)

6.4.3.1 How to use these rules and duration of rules

6.4.3.1.1 These rules apply to activities specified in the Activity Status Tables in Rule 6.4.3.2 in locations outside of the Central City and in the zones identified as "Group 2" below:

| Group | Zone | The rules applying to this zone can be found in: |
|--------------|---|--|
| Group 1 | Commercial Banks Peninsula Commercial Core (except New Brighton) Commercial Fringe Commercial Local Commercial Retail Park Industrial General Industrial Heavy (except Springs Road) Industrial Office Industrial Park (except Wairakei Road and Memorial Avenue) Residential Banks Peninsula Residential Conservation Residential Medium Density Residential Suburban Residential Suburban Density Transition | Section 6.4.2 |
| Group 2 | Open Space (all zones) Papakāinga Residential Bach Residential Guest Accommodation Residential Hills Residential Large Lot Residential New Neighbourhood Residential Small Settlement Rural (all zones) Specific Purpose (all zones) | Section 6.4.3 |
| Central City | All Central City | Section 13.14.1 |

6.4.3.1.2 The Rules that apply to the activities specified in Rule 6.4.3.2 are:

- a. the Activity Specific Standards in Rule 6.4.3.2
- b. the rules in Chapter 5 Natural Hazards

6.4.3.1.3 The permitted activities under 6.4.3.2.1 are only permitted when all of the relevant standards applying to the permitted activity are operative.

6.4.3.2 Activity status tables

6.4.3.2.1 Permitted activities

The activities listed below are permitted activities if they comply with the Activity Specific Standards set out in this table and the rules in Chapter 5 Natural Hazards.

Activities may also be restricted discretionary or non-complying as specified in Rules 6.4.3.2.2 and 6.4.3.2.4.

| Activity | Activity specific standards |
|--|---|
| <p>P1 Any temporary activity established under either clause 7(3)(a) or 8(3)(a) of the Canterbury Earthquake (Resource Management Act Permitted Activities) Order 2011 that is in accordance with either:</p> <ul style="list-style-type: none"> a) the provisions of a Public Notice published on 9 April 2011, 21 December 2011 and 23 October 2013; or b) a public notice published for a site specific approval that would expire on 20 April 2016 are permitted activities up to 30 April 2018 | <p>a. The activity shall comply with all standards specified in the relevant Public Notice</p> |
| <p>P2</p> <ul style="list-style-type: none"> a. Office, education activity, pre-school, health care facilities, places of assembly until the 30 April 2018, located in an Open Space, Specific Purpose (School), Specific Purpose (Tertiary Education), Rural, Papakāinga, Residential Hills, Residential Large Lot, Residential New Neighbourhood, or Residential Small Settlement Zone. b. Retail activity until the 30 April 2018, located in an Open Space, Specific Purpose (School), Specific Purpose (Tertiary | <ul style="list-style-type: none"> a. The activity moved from the land or building it occupied prior to the 2010 and 2011 Canterbury Earthquakes because that land or building could not be occupied due to: <ul style="list-style-type: none"> i. the building becoming uninhabitable or demolished as a consequence of the 2010 and 2011 Canterbury Earthquakes; or ii. the building or land being evacuated to enable the repair of the land or building that was damaged by the 2010 and 2011 Canterbury Earthquakes; or iii. a risk to people and property from the continued use of the land or building as a consequence of the 2010 and 2011 Canterbury Earthquakes, including risks from neighbouring properties. b. The activity shall be connected to or be serviced by: <ul style="list-style-type: none"> i. a means of sanitary sewage disposal; ii. a potable water supply that meets the standards of the Canterbury District Health Board and a water supply for firefighting consistent with the New Zealand Fire Service Firefighting Water Supplies Code of Practice |

Education), or Rural Zone.

(SNZ PAS4509:2008);

- iii. a method of discharging stormwater that does not discharge stormwater on to adjoining properties or adversely affect water quality; and
- iv. a power supply.
- c. New structures must be relocatable and must be relocated off the site by 30 April 2018, unless they comply with the District Plan rules. Sites and existing structures must be remediated to their state prior to the temporary earthquake recovery activity being located there, or a state in compliance with District Plan rules. All structures and sites must be left clean and tidy.
- d. Any new structures shall comply with the height and recession plane standards for the relevant zone.
- e. Any new structures must be set back at least 3m from any road boundary or must comply with any setback from road boundary standards in the relevant zone, whichever is the lesser.
- f. Any new structures shall be set back at least 3m from any boundary with a site in a Residential zone or property with an occupied residential unit within the Specific Purpose (Flat Land Recovery) Zone, or must comply with the boundary setback standards in the relevant zone, whichever is the lesser.
- g. The activity shall provide at least 50% of the car parks required by Table 7.2 and Table 7.3 in Appendix 7.1 – Parking space requirements. Car parks shall be designed in accordance with the standards in Appendix 7.1. Manoeuvring for parking and loading areas shall be provided in compliance with Rule 7.2.3.4. Any additional vehicle access shall be designed in accordance with Rule 7.2.3.7 and shall provide vehicle crossings that comply with Rule 7.2.3.8.
- h. The activity shall comply with Rule 7.2.3.10 High Trip Generators.
- i. The activity shall restrict its hours of operation to the following:

| | Activity | Permitted hours of operation |
|------|--------------------|--|
| i. | Office | 7am-9pm Monday to Friday; 7am -1pm Saturday, Sunday and public holidays. |
| ii. | Education activity | 7am-9pm Monday to Saturday; Closed on Sunday and public holidays. |
| iii. | Pre-school | 7am-9pm Monday to Friday |

6.4.3.2.3 Discretionary activities

There are no Discretionary Activities in Rule 6.4.3.

6.4.3.2.4 Non-complying activities

| Activity | |
|----------|---|
| NC1 | Activities P2 to P7 listed in 6.4.3.2.1 that do not comply with activity specific standards P2x., P3p., P4p., P5t., P6m., and P7n. (Setback from the National Grid transmission lines and other electricity distribution lines and support structures). |
| NC2 | Any Activity listed in 6.4.3.2.1 or 6.4.3.2.2 (RD1, RD2, RD3 and RD7) after 30 April 2022. |
| NC3 | <p>Construction depot until the 30 April 2018 which is used for construction work (as defined in section 6 of the Construction Contracts Act 2002) to repair or rebuild land, buildings, infrastructure or other facilities damaged by the Canterbury Earthquakes, and which is located;</p> <p>a. 12 metres or less from the centre line of a 110kV or 220kV National Grid transmission line and 12 metres or less from a foundation of an associated support structure, or</p> <p>b. 10 metres or less from the centre line of a 66kV National Grid transmission line and 10 metres or less from a foundation of an associated support structure.</p> |

PROPOSAL 6B(i)

Chapter 6 General Rules and Processes

6.4.4 Rules - Temporary lifting or moving earthquake damaged buildings outside of the Central City

6.4.4.1 How to use these rules

6.4.4.1.1 These rules apply only to activities in zones other than Residential Suburban, Residential Suburban Density Transition Zone, Residential Medium Density Zone, Residential Banks Peninsula Zone, and Residential Conservation Zone.

Note: The rules relating to the temporary lifting or moving of earthquake damaged buildings within the Central City are in Chapter 13. The rules relating to the temporary lifting or moving of earthquake damaged buildings in Residential Suburban, Residential Suburban Density Transition, Residential Medium Density, or Residential Banks Peninsula Zones are included in Chapter 14 under Rules 14.2..2, 14.3.2, 14.4.2 and 14.5.2.

6.4.4.2 Activity status tables

6.4.4.2.1 Permitted Activities

The activities listed below are permitted activities in any zone outside of the Central City, and to zones other than Residential Suburban, Residential Suburban Density Transition, Residential Medium Density, or Residential Banks Peninsula, if they comply with the Activity Specific Standards set out in this table.

Activities may also be restricted discretionary as specified in Rule 6.4.4.2.3.

| Activity | | Activity Specific Standards |
|----------|---|--|
| P1 | Temporary lifting or moving of earthquake damaged buildings | <p>a. Buildings shall not be:</p> <ul style="list-style-type: none">i. moved to within 1m of an internal boundary and/or within 3m of any water body, a listed Significant Tree or listed Heritage Setting or Heritage Item in Chapter 9 of the District Plan, natural resources and Council owned structure, archaeological sites, or the coastal marine area;ii. lifted to a height exceeding 3.0m above the height of the existing building. |

| | | |
|--|--|--|
| | | <p>b. The building must be lowered back or moved back to its original position, or a position compliant with the District Plan or consistent with a resource consent, within 12 weeks of the lifting or moving works having first commenced.</p> <p>c. In all cases of a building being moved or lifted, the owners/occupiers of land adjoining the sites shall be informed of the work at least seven days prior to the lift or move of the building occurring. The information provided shall include details of a contact person, details of the lift or move, and the duration of the lift or move.</p> <p>d. The Council's Resource Consents Manager shall be notified of the lifting or moving the building at least seven days prior to the lift or move of the building occurring. The notification must include details of the lift or move, property address, contact details and intended start date.</p> |
|--|--|--|

6.4.4.2.2 Controlled Activities

| |
|--|
| <p>There are no controlled activities.</p> |
|--|

6.4.4.2.3 Restricted Discretionary Activities

The activities listed below are restricted discretionary activities.

Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table.

| Activity | | The Council's discretion shall be limited to the following matters: |
|-----------------|---|---|
| RD1 | <p>Temporary lifting or moving of earthquake damaged buildings that does not meet the activity specific standards in Rule 6.4.4.2.1 P1.</p> <p>Any application arising from this rule will not require written approvals and shall not be publicly or limited notified.</p> | <p>Whether the temporary lifting or moving of the earthquake damaged building is appropriate taking into account:</p> <ol style="list-style-type: none"> a. The effect of reduced proximity on the amenity and/or operation of any neighbouring sites, water bodies, coastal marine area, archaeological sites, natural resources, or protected heritage items, settings, or significant trees. b. The duration of time that the building will be lifted or moved; c. Any adverse effects on adjoining owners or occupiers relating to shading and building dominance; and d. Occupancy of the neighbouring properties for the duration of the works, the extent to which neighbouring properties are occupied for the duration of the works. |

PROPOSAL 6C(i)

Chapter 6 General Rules and Processes

6.4.5 Rules - Workers' Temporary Accommodation outside the Central City

6.4.5.1 General Rules for Workers' Temporary Accommodation

- 6.4.5.1.1 These rules apply to activities specified in the Activity Status Tables in Rule 6.4.5.2.
- 6.4.5.1.2 The rules that apply to the activities specified in Rule 6.4.5 are:
- a. the Activity Specific Standards in Rule 6.4.5.2
 - b. the rules in Chapter 5 Natural Hazards, and Chapter 12 Hazardous Substances and Contaminated Land.
- 6.4.5.1.3 The rules in section 6.4.5 do not apply to the Central City.
Note: Rules for Central City Workers' Temporary Accommodation are in section 13.13.1.3.
- 6.4.5.1.4 Section 6.4.5 of the District Plan shall cease to have effect on 31st December 2022.
- 6.4.5.1.5 The provisions under Rule 6.4.5 shall only have effect when all of the relevant provisions for the activities are operative.
- 6.4.5.1.6 Within 12 months of the cessation of any workers' temporary accommodation use, a previous use of the site no longer permitted under the District Plan may be reinstated provided that such reinstatement is in accordance with either:
- a. an existing use certificate issued under s 139A of the RMA; or
 - b. a resource consent issued under s114 of the RMA; and
- in relation to a. and b. above, the certificate or resource consent was issued prior to conversion to workers' temporary accommodation and was still valid at the time of conversion.
This reinstatement is permitted whether or not the certificate or resource consent would have otherwise lapsed or ceased to have effect.

6.4.5.2 Activity Status Tables

6.4.5.2.1 Permitted Activities

The activities listed below are permitted activities in the zones indicated if they comply with the Activity Specific Standards set out in this table.

Activities may also be controlled, restricted discretionary, or non-complying as specified in Rules 6.4.5.2.2, 6.4.5.2.3 and 6.4.5.2.4.

| Activity | | Activity specific standards |
|-----------|--|--|
| P1 | <p>Workers' temporary accommodation until 31 December 2022 provided through use or conversion of a permanent:</p> <ul style="list-style-type: none"> a. residential unit; b. guest accommodation unit or facility; c. boarding or residential accommodation ancillary to an education activity; d. elderly persons' housing, care facility and/or retirement village | <ul style="list-style-type: none"> a. The permanent activity and building(s) shall otherwise comply with all relevant District Plan requirements or consent conditions for its permanent use; b. The temporary use shall not result in an existing activity on the site failing to comply or increasing the degree of non-compliance with a rule in the District Plan or a resource consent condition; c. On-site management shall be provided for the workers' temporary accommodation. This shall include: <ul style="list-style-type: none"> i. a live-in manager on site, or a nominated occupant where no more than 4 people are accommodated; ii. security services; and iii. on-site rules and policies. |
| P2 | <p>Accessory buildings to any workers' temporary accommodation until 31 December 2022</p> | NIL |

APPENDIX 6.2 WORKERS' TEMPORARY ACCOMMODATION - DESIGN GUIDE

1.1 Introduction

- a. Why has this guide been developed?
 - i. This guide has been developed because special provision needs to be made to accommodate the additional workers and their families who will be in greater Christchurch for the rebuild. Housing demand analysis suggests additional accommodation will be needed for this substantial number of workers, many of whom will be coming from outside the region. Some will be accommodated in permanent housing (either existing or new), some in other types of accommodation such as motels, and others will be accommodated in temporary housing buildings developed specifically to accommodate construction workers.
 - ii. An important part of meeting this housing demand will be to offer options for temporary accommodation. For example, bulk unit developments may be desirable for the large construction gangs who are expected to temporarily migrate to greater Christchurch. The demand for this type of development, particularly at the numbers anticipated, is unique in New Zealand.
 - iii. This imperative for workers' accommodation is for the short term only. At the same time, this accommodation still needs to be of high quality and suitably located, have minimal if any impacts on surrounding neighbourhoods, and be effectively operated. This guide therefore responds to the gap in current guidance on this unique type of accommodation.
 - iv. The purpose of this guide is to:
 - A. outline considerations for planning and designing workers' temporary accommodation in a way that encourages innovative and high-quality development
 - B. provide guidance to applicants and councils on the key considerations in determining resource consent applications
 - C. provide information to existing residents and communities on critical considerations for workers' temporary accommodation.
- b. How to use the guide
 - i. This guide complements District Plan provisions for workers' temporary accommodation in section 6.4.5. It sets out considerations and good practice examples. However, as each case will be different, the various considerations and examples may be more relevant in some situations than in others.
- c. Other consents and approvals
 - i. This guide is specifically about design and planning considerations for workers' temporary accommodation. It is to assist in assessments by Christchurch City Council under the Resource Management Act. It is not intended to apply to building consents or

other regulatory assessments. In addition to resource consent, a workers' accommodation project may require consent or approval under the Building Act, Health Regulations, or under the Resource Management Act from Environment Canterbury. A separate information sheet is available on broader regulatory requirements.

d. Principles

- i. This guide has four overarching principles for the development of workers' temporary accommodation.
 - A. Workers' temporary accommodation is designed to respond to the characteristics of the locality and avoid, remedy or mitigate significant adverse effects on the characteristics of local neighbourhoods.
 - B. Workers' temporary accommodation provides high-quality accommodation with good on-site amenity.
 - C. On-site management and operation of workers' temporary accommodation effectively contribute to high-quality accommodation for occupants and minimise impacts on surrounding neighbourhoods.
 - D. Workers' temporary accommodation is genuinely temporary in place no longer than 31 December 2022.

1.2 Guidelines for location suitability

- a. It is acknowledged that workers' temporary accommodation is temporary and may be of a modular, repeated or re-locatable style that would not normally be expected in a residential or commercial environment. It is not expected that temporary accommodation can fully integrate into an existing community, nor is it expected that temporary accommodation will have only minor effects. However, site selection, site design and building design can help to avoid significant adverse effects on existing neighbourhoods and to provide suitable accommodation for occupants.

| Location suitability considerations | Examples of good practice |
|--|---|
| <p>Consideration 1: Location suitability</p> <p>a. Whether a site is suitable for workers' temporary accommodation will be assessed on a case by case basis, taking into account:</p> <ul style="list-style-type: none"> i. the scale of the development ii. who will occupy the development and the | <p>1. Key measures</p> <ul style="list-style-type: none"> a. Location in the Christchurch central city is encouraged. b. Location within existing urban areas, particularly in existing residential or commercial areas, is encouraged. c. Locations within incompatible adjoining or nearby uses should be avoided. Large developments should not be undertaken next to sensitive activities such as schools, because they may affect the amenity, character or social aspects of the area. Sites should not be chosen if adjoining uses generate significant effects on the workers that are not mitigated (eg noise, discharges or hazardous substance risk). d. Water (including a water supply for firefighting consistent with the New Zealand Fire Service |

| | |
|--|--|
| <p>nature/location of the occupants' work</p> <p>iii. transport options</p> <p>iv. adjoining uses</p> <p>v. the availability and capacity of infrastructure to service the site</p> <p>vi. physical constraints and hazards such as flood risk</p> | <p>Firefighting Water Supplies Code of Practice (SNZ PAS 4509:2008), wastewater and stormwater infrastructure should be available to the site and have the capacity required for the number of workers in the accommodation. Locations within the existing urban area have more infrastructure availability. Areas where infrastructure capacity is not currently available or is particularly fragile is shown as the EQ damaged area on the Christchurch Wastewater Overview Map below. This information is subject to change over time. Current information on the capacity of the wastewater network is available from Council.</p> <p>e. The land should be physically suitable for this type of accommodation. It will usually be necessary to avoid areas of flood risk, sensitive aquifer zones, sites on the listed land-use register, or other sites with physical constraints, unless the specific site, design or duration of the accommodation provides exceptions for developing there.</p> <p>2. Other considerations</p> <p>a. Location in medium or high density residential zones may be more appropriate than low density residential zones.</p> <p>b. Location near to the work site(s) and near to public services and facilities such as retail and entertainment areas is encouraged</p> <p>c. The suitability of the location will depend on the scale, nature and term of the development. For example, if migrant workers are living in accommodation on short-term rotation, (eg three month rotation for a five year period), a development may be acceptable in an industrial zone or close to the airport, but this location is less likely to be acceptable for workers who are employed for a continuous 10 year period.</p> <p>d. Sites should not displace permanent uses that are planned within an overlapping timeframe. For example, it would be inappropriate to choose a greenfield residential site that will be needed for permanent residential development before the temporary accommodation units are due for removal. Similarly, it would be inappropriate to use a commercial building if that type of building is in high demand due to displacement.</p> <p>e. An acceptable size of development will be smaller in a low density residential area than in a high density residential, commercial or mixed use area.</p> |
|--|--|

| | |
|--|--|
| | <ul style="list-style-type: none"> f. The nature of transport arrangements to be provided for occupants will determine the appropriate distance between the accommodation site and the primary work site(s). For example, a distance within 5km would be desirable if no transport is to be provided between the two sites, but a distance of up to 10km would be acceptable if transport is provided. g. Selecting a location where public transport options are available, such as to work sites and retail/entertainment centres, is encouraged. h. The traffic and transport effects of a location include how the development will affect amenity, traffic safety and transport efficiency. The nature of the effects depends on the size of the development and the type of road used for access to the project site. Selecting a site which avoids significant traffic or transport effects is encouraged. |
|--|--|

1.3 Guidelines for site layout and building design

- a. The standard of the design of buildings and the layout and orientation of buildings and activities on the site are a major influence on both the quality of the accommodation and its effects on the surrounding neighbourhood. Although the development is temporary, it may be the primary residence for an occupant for a number of months or years. A temporary accommodation project may be larger and more intense than anticipated and may have some temporary adverse effects, but site design can help to minimise the effects on the surrounding neighbourhood.

| Site layout and building design considerations | Examples of good practice |
|--|--|
| <p>Consideration 2: Minimising effects on existing neighbourhoods</p> <ul style="list-style-type: none"> a. It is desirable that developments are compatible with the streetscape and mitigate potential effects on the amenity of an established environment. This is a particular consideration for residential environments. | <ul style="list-style-type: none"> 1. Key measures <ul style="list-style-type: none"> a. Buildings such as the manager’s residence, site office, communal facility, or other buildings that are not individual units should be located on a street frontage if they assist in creating a compatible street frontage and a ‘street address’. b. Facilities or services on the site that are to be available for public or community use should be located on street frontages to limit public access through the site. This will also help to create a ‘street address’. c. Fencing and landscaping along road boundaries should be provided. Road fencing should not provide extensive lengths of solid screening. Any fencing above 1m height should be at least 50 per cent transparent. d. Building placement and orientation should internalise effects such as noise or lighting rather |

| | |
|--|---|
| | <p>than directing effects towards neighbouring sites. Design and layout should achieve the noise standards for the zone in the District Plan. Screening or landscaping around outdoor activities that generate effects also helps to internalise effects.</p> <ol style="list-style-type: none"> 2. Other considerations <ol style="list-style-type: none"> a. Screen fencing between 1.8m and 2m should be provided along boundaries adjoining residential neighbours. Fencing should be designed to be compatible with the adjoining use; for example, security fencing is not compatible with a residential environment. Landscaping along boundaries is also encouraged. b. A separation between residential boundaries and buildings, service areas and recreation areas is encouraged. For example, it might take the form of a 3m setback. c. The site can be designed to link with existing neighbourhood services, for example by providing an appropriate location for vehicle and pedestrian access points. d. The working patterns of the occupants and the timing of traffic movements will influence how compatible the development is with surrounding uses. For example, a large site with shift workers travelling late at night may not be suitable in a residential area. e. Location and design of carparking and vehicle accessways should minimise internal traffic movement, minimise vehicle movements and avoid locations next to neighbouring sites. |
| <p>Consideration 3: District Plan guidance on site and building design</p> <ol style="list-style-type: none"> a. The District Plan provides relevant guidance on appropriate site and building design to achieve the outcomes anticipated for the zone. | <ol style="list-style-type: none"> 1. Key measures <ol style="list-style-type: none"> a. If buildings and related services comply with the standards in the District Plan for permanent buildings, the project design is more likely to be similar to what the District Plan anticipates for the location. This measure is particularly relevant in the residential environment, and should be given particular attention near site boundaries, for example, in relation to height and setbacks from boundaries. |
| <p>Consideration 4: Unit and building design</p> | <ol style="list-style-type: none"> 1. Other considerations <ol style="list-style-type: none"> a. Where communal facilities are provided (for example, cooking, dining, showers or recreational |

| | |
|---|---|
| <p>a. The appearance and design of workers' temporary units and buildings is not expected to be to the standard anticipated for permanent accommodation. However, the choice of materials, type of construction, building size, design, and layout can contribute to a development that minimises impact on the neighbourhood while providing quality living space for occupants.</p> | <p>facilities), individual units can be small, for example a floor area of 14m² may be appropriate.</p> <p>b. Where units are completely self-contained with no communal or on-site facilities, individual units should be larger to provide more living space within each unit.</p> <p>c. Buildings that are highly visible from adjoining residential sites can use materials, finishes, designs and techniques to minimise effects. For example, large continuous walls could be broken, or changes in building height and scale could be used to be more compatible with the building bulk anticipated by the District Plan.</p> <p>d. The design and appearance of large communal facility buildings are of particular importance as these buildings are often a focus and significant visual feature of a site.</p> <p>e. There may be location-specific considerations relevant to building design. For example, design, construction and operation to reduce noise may be relevant in some locations near the airport or heavy industry for noise insulation. Another example of location-specific considerations would be effects relevant to a special amenity area identified in the district plan.</p> <p>f. Providing weather protection at unit and building entrances is encouraged.</p> <p>g. Units can be designed, constructed and located to make the most of the sun and to provide a warm and dry living environment.</p> <p>h. Building design should facilitate building removal or relocation as proposed in the decommissioning strategy.</p> |
| <p>Consideration 5: On-site facilities and services</p> <p>a. The need for on-site facilities and services will be identified on a case-by-case basis depending on the nature and size of the development. On-site facilities will help to improve the quality of accommodation, contribute to the successful operation of the site, and reduce</p> | <p>1. Other considerations</p> <p>a. Sites should either be connected to council water, stormwater and wastewater networks, or be self-contained. Each site will need to determine the expected demand on services and how that demand will be met.</p> <p>b. Communal facilities and services provided on-site will depend on the needs of the occupants. For example, a recreation facility may be warranted on a site of more than 100 workers. Alternatively, on-site facilities may not be necessary where public services and facilities are operating close by.</p> <p>c. Where communal recreation or open space is provided, it is not necessary to provide open space with each unit, but this design is encouraged.</p> <p>d. There needs to be servicing arrangements and adequate space for this. For example, the site may</p> |

| | |
|--|---|
| <p>any impact beyond the site.</p> | <p>manage its own solid waste or may rely on the council service. The site may offer laundry service or laundry facilities may be contained in each unit.</p> |
| <p>Consideration 6: Parking and access</p> <p>a. Providing appropriate parking and access contributes to meeting the needs of occupants while also avoiding or mitigating effects on the streetscape. Parking needs will depend on the characteristics of the occupants and the transport services provided.</p> | <ol style="list-style-type: none"> 1. Key measures <ol style="list-style-type: none"> a. Where communal transport services are provided or public transport will be used between the accommodation site and work site, a minimum of one parking space per four occupants should be provided. Where no transport services are provided, the District Plan parking requirements provide relevant guidance. b. Where transport services are provided, a bus or van drop-off/pick-up area should be provided within the site. c. Communal transport services to both work sites and other activities should be provided on sites with more than 100 occupants. 2. Other considerations <ol style="list-style-type: none"> a. Where developments accommodating over 200 people have road frontage to the Strategic Road Network (as defined in the Canterbury Regional Land Transport Strategy), access should be provided to another road unless this is not reasonably practicable. b. Grouping parking spaces together will reduce vehicle movements within the site. c. Avoid parking areas and accessways that adjoin residential neighbours as far as possible. d. Providing secure, covered cycle parking is encouraged. |
| <p>Consideration 7: Incorporating safety and security into design</p> <p>a. Adopting the principles of crime prevention through environmental design (CPTED) and limiting the potential for hazards and risks will contribute to providing accommodation that is safe for the occupants and local community.</p> | <ol style="list-style-type: none"> 1. Key measures <ol style="list-style-type: none"> a. Site layout and features should incorporate key crime prevention through environmental design (CPTED) principles. For example, they should provide good internal site lighting, and avoid high fencing or planting at the street frontage. A reference to the national CPTED guidelines is provided at the end of this guideline. 2. Other considerations <ol style="list-style-type: none"> a. A locking system for the doors and windows of each unit will provide security. b. There should be suitable access for emergency vehicles and on-site emergency management procedures. |

1.4 Guidelines for on-site management and operation

- a. The quality of workers' temporary accommodation projects will be improved through comprehensive management. In addition, the potential adverse impacts are likely to be reduced where accommodation is comprehensively managed as a 'complex'. Depending on the size and nature of the accommodation, management as a complex may include providing services such as cleaning, catering, security, transport, health services, social support and communal recreation facilities.

| On-site management considerations | Examples of good practice |
|---|--|
| <p>Consideration 8: On-site management arrangements</p> <p>a. Effective on-site management contributes significantly to the quality and successful operation of accommodation, and minimises potential impacts on the local community.</p> <p>b. On-site management linked to employment arrangements can be most effectively maintained and administered on an on-going basis.</p> | <ol style="list-style-type: none"> 1. Key measures <ol style="list-style-type: none"> a. On-site management arrangements should be in place. The type of on-site management involved will depend on the size and nature of the complex. For example, for accommodation for less than 10 people, a nominated occupant could provide the on-site management role. For medium sized complexes, an appointed professional property manager could provide management services. For larger complexes a full time live-in manager would be required. 2. Other considerations <ol style="list-style-type: none"> a. Depending on the size and nature of the project, a written management plan will set out all site management procedures and 'rules' including: <ol style="list-style-type: none"> i. roles and responsibilities ii. procedures for communication with neighbours and community iii. servicing, cleaning and maintenance arrangements iv. security and crime prevention measures v. drug and alcohol policy vi. management of transport of workers vii. health and safety measures viii. emergency management ix. animal control x. catering arrangements xi. noise management xii. on-site behaviour expectations xiii. management of disturbances xiv. parking management xv. public facility management xvi. management of requests and complaints. xvii. linking the on-site 'rules' to employment arrangements increases the status of those rules. It is possible to make this more formal |

| | |
|--|---|
| | link if occupancy is arranged through a specific employer. |
| <p>Consideration 9: Support services</p> <p>a. Providing workers with broader support will help to improve the overall quality of accommodation and help to integrate them into the local community.</p> | <p>1. Other considerations</p> <p>a. Providing appropriate support services - for example, pastoral care and migrant support - is encouraged.</p> |

1.5 Guidelines for decommissioning

- a. As the standard District Plan expectations are being varied to provide for this special type of accommodation, it is critical that the temporary buildings are removed so that each development is indeed temporary and does not permanently affect the environment. A decommissioning strategy will provide confidence that these buildings are genuinely temporary and will set up the mechanisms for their removal.

| Decommissioning considerations | Examples of good practice |
|--|--|
| <p>Consideration 10: Decommissioning strategy</p> <p>a. Workers' temporary accommodation will be assessed on the basis that it does not become permanent accommodation.</p> <p>b. An enforceable decommissioning strategy is a critical component of any workers' temporary accommodation project.</p> | <p>1. Key measures</p> <p>a. A decommissioning strategy should be in place to confirm the long-term plan for buildings, phasing of decommissioning and removal of buildings and how the site will be reinstated ready for its anticipated permanent use.</p> <p>b. All temporary units must be removed by 31 December 2022, or earlier.</p> <p>2. Other considerations</p> <p>a. Building design should be a consideration in the decommissioning strategy to ensure design does not inhibit the implementation of the strategy.</p> <p>b. Use of legal instruments to assist making future owners aware of the removal requirement or provide an additional means of assuring removal are encouraged, for example an encumbrance may be registered.</p> <p>c. After it has been used for workers' temporary accommodation, a site may need to be remediated to make it suitable for its anticipated long-term use.</p> <p>d. If landscaping of the site has been completed, it may be possible to retain some or all of the landscaping at the reinstatement stage.</p> |

1.6 Guidelines for communicating with neighbours

- a. It is important to keep adjoining neighbours and the wider neighbourhood informed about the project as it develops and also during operation so that a project can respond to perceived or actual concerns about the accommodation. Communication procedures will normally be part of the site management plan but are also a consideration during the design phase. While the new District Plan provisions may not require the approval of affected parties and may not require limited notification for a workers' temporary accommodation project, communicating with neighbours is encouraged.

| Communication considerations | Examples of good practice |
|--|--|
| <p>Consideration 11: Communication</p> <p>a. Communicating with neighbours throughout the design, development and operation of the accommodation project will help to contribute positively to the local neighbourhood and minimise effects on neighbours.</p> | <ol style="list-style-type: none"> 1. Other considerations <ol style="list-style-type: none"> a. A written communication statement or plan can identify: <ol style="list-style-type: none"> i. key points of contact for the accommodation project during the design, development and operation of the complex ii. contact details of immediate neighbours and any local neighbourhood groups iii. when neighbours will be notified and about what. b. Key times to notify neighbours may be during site selection, when the design is complete, when construction is due to start, when occupation commences, key phases of occupancy changes, and when decommissioning commences. More regular communication during operations may be appropriate depending on the size of the accommodation complex. c. Information that may be of interest to neighbours includes the site design, occupancy numbers, staffing, site management rules, on-site management arrangements, safety/security arrangements and occupants' employment locations. d. Information that may be of interest to occupants includes opportunities to participate in or support community activities, sport and other recreational or cultural activities. e. Larger accommodation projects may hold regular meetings or events with neighbours to discuss operational matters. |

1.8 Christchurch Wastewater Overview Map

- a. The following map is intended to provide general guidance on the status of the wastewater network as of January 2015. This information is subject to change over time. Current information on the capacity of the wastewater network is available from Council and should be sought at the time of application.

APPENDIX 6.11.1 Workers Temporary Accommodation Site - Part of 25 Deans Avenue (Pt RS 9,9,9)

PLANNING MAPS - Amend planning maps to include Orion 33 and 66kV electricity distribution lines and the 11kV Heathcote to Lyttelton line.

Chapter 13 Central City

13.13.1 Central City Temporary Earthquake Recovery Activities

13.13.1a. Objectives and Policies

13.13.1a.i. Objective

Refer to Strategic Directions Chapter 3.3.15 Objective - Temporary recovery activities

13.13.1a.i.A Policy - Temporary displaced activities, storage facilities and construction depots

I. Enable earthquake related displaced activities, storage facilities and construction depots in temporary locations until 30 April 2018, while managing significant adverse effects.

II. To provide for earthquake related displaced activities, storage facilities and construction depots in temporary locations for an additional transitional period taking into account the matters in Objective 3.3.15(b), assessed on a case by case basis.

13.13.1a.i.B Policy - Temporary lifting or moving of buildings

I. Enable some temporary infringement of built form standards to facilitate the timely completion of repairs to earthquake damaged buildings, whilst protecting significant features.

13.13.1a.i.C Policy - Worker's Temporary Accommodation

I. Provide for workers' accommodation in temporary locations until 31 December 2022 through the:

- i. temporary use of permanent buildings in appropriate areas
- ii. temporary conversion of permanent buildings in appropriate areas
- iii. establishment and use of temporary accommodation units, including multi-unit developments, in appropriate areas,

while managing significant adverse effects.

13.13.1.1 Rules - Displaced activities, storage facilities and construction depots within the Central City

13.13.1.1.1 How to use these rules and duration of rules

13.13.1.1.1.1 These rules apply to activities specified in the Activity Status Tables in Rule 13.13.1.1.2 where they are located within the Central City.

13.13.1.1.1.2 The Rules that apply to the activities specified in Rule 13.13.1.1.2 are:

- a. the Activity Specific Standards in Rule 13.13.1.1.2
- b. the rules in Chapter 5 Natural Hazards

13.13.1.1.1.3 The permitted activities under 13.13.1.1.2.1 are only permitted when all of the relevant standards applying to the permitted activity are operative.

13.13.1.1.2 Activity status tables

13.13.1.1.2.1 Permitted activities

The activities listed below are permitted activities within the Central City if they comply with the Activity Specific Standards set out in this table and the rules in Chapter 5 Natural Hazards.

Activities may also be restricted discretionary or non-complying as specified in Rules 13.13.1.1.2.2 and 13.13.1.1.2.4.

| Activity | Activity specific standards |
|---|---|
| <p>P1 Any temporary activity established under either clause 7(3)(a) or 8(3)(a) of the Canterbury Earthquake (Resource Management Act Permitted Activities) Order 2011 that is in accordance with either:</p> <ul style="list-style-type: none"> a. the provisions of a Public Notice published on 9 April 2011, 21 December 2011 and 23 October 2013; or b. a public notice published for a site specific approval <p>that would expire on 20 April 2016 are permitted activities up to 30 April 2018</p> | <ul style="list-style-type: none"> a. The activity shall comply with all standards specified in the relevant Public Notice |
| <p>P2</p> <ul style="list-style-type: none"> a. Office, education activity, pre-school, health care facilities, places of assembly until the 30 April 2018, located in a Central City Community Parks, Central City School, Central City Tertiary Education, Central City Residential Zone. b. Retail activity until the 30 April 2018, located in an Open Space, Central City School, or Central City Tertiary Education Zone. | <ul style="list-style-type: none"> a. The activity moved from the land or building it occupied prior to the 2010 and 2011 Canterbury Earthquakes because that land or building could not be occupied due to: <ul style="list-style-type: none"> i. the building becoming uninhabitable or demolished as a consequence of the 2010 and 2011 Canterbury Earthquakes; or ii. the building or land being evacuated to enable the repair of the land or building that was damaged by the 2010 and 2011 Canterbury Earthquakes; or iii. a risk to people and property from the continued use of the land or building as a consequence of the 2010 and 2011 Canterbury Earthquakes, including risks from neighbouring properties. b. The activity shall be connected to or be serviced by: <ul style="list-style-type: none"> i. a means of sanitary sewage disposal; ii. a potable water supply that meets the standards of the Canterbury District Health Board and a water supply for firefighting consistent with the New Zealand Fire Service Firefighting |

Water Supplies Code of Practice (SNZ PAS4509:2008);

- iii. a method of discharging stormwater that does not discharge stormwater on to adjoining properties or adversely affect water quality; and
- iv. a power supply.
- c. New structures must be relocatable and must be relocated off the site by 30 April 2018, unless they comply with the District Plan rules. Sites and existing structures must be remediated to their state prior to the temporary earthquake recovery activity being located there, or a state in compliance with District Plan rules. All structures and sites must be left clean and tidy.
- d. Any new structures shall comply with the height and recession plane standards for the relevant zone.
- e. Any new structures must be set back at least 3m from any road boundary or must comply with any setback from road boundary standards in the relevant zone, whichever is the lesser.
- f. Any new structures shall be set back at least 3m from any boundary with a site in a Residential zone or must comply with the boundary setback standards in the relevant zone, whichever is the lesser.
- g. The activity shall comply with the Central City Transport provisions under Rule 13.9.
- h. The activity shall comply with Rule 13.9.2.3.9 High Trip Generators.
- i. The activity shall restrict its hours of operation to the following:

| | Activity | Permitted hours of operation |
|-----|--------------------|--|
| i. | Office | 7am-9pm Monday to Friday; 7am -1pm Saturday, Sunday and public holidays. |
| ii. | Education activity | 7am-9pm Monday to Saturday; Closed on |

| | | | |
|--|--|--|--|
| | | | Sunday and public holidays. |
| | | iii. | Pre-school 7am-9pm Monday to Friday; 7am-1pm Saturday, Sunday and public holidays |
| | | iv. | Health care facility 7am-9pm Monday to Sunday and public holidays. |
| | | v. | Place of assembly 7am-9pm Monday to Sunday. |
| | | vi. | Retailing in Open Space, Rural or Specific Purpose (School, Tertiary Education) zones 7am-7pm Monday to Saturday 9am-7pm Sunday and public holidays. |
| | | <p>j. The activity shall comply with all standards for that zone in the Noise provisions under Rule 13.14.4.</p> <p>k. The activity shall comply with all standards for that zone in the Outdoor Lighting and Glare provisions under Rule 13.14.3.</p> <p>l. The activity shall comply with all standards for that zone in the Hazardous Substances and Contaminated Land provisions in Rule 13.16.</p> <p>m. The activity must not result in the alteration or destruction of any listed Significant Tree or Heritage Setting or Heritage Item that is not permitted in Rule 13.12 of the District Plan.</p> <p>n. The activity must have at least one access to an existing road that is not a driveway shared by more than one residential unit.</p> <p>o. The activity must not involve subdivision of land.</p> | |

| | | |
|-----------|---|---|
| | | <p>p. Outdoor advertisements are restricted to a maximum area of 2m² or the area and number provided for in the relevant zone, whichever is greater.</p> <p>q. Any Outdoor advertisements shall not be internally or externally illuminated.</p> <p>r. Any Outdoor advertisements shall be designed to comply with all other Sign provisions under Rule 13.14.7.</p> <p>s. 13.13.1.1.2.2 Restricted discretionary activities

Activities listed below are Restricted Discretionary Activities.

Discretion to grant or decline consent and impose conditions is restricted to the Matters of Discretion set out in the following table.

| Activity | | The Council's discretion shall be limited to the following matters: |
|------------|---|--|
| RD1 | <p>One Residential Unit on a site until the 30 April 2018, additional to that otherwise permitted in the District Plan rules, located in a Central City Residential Zone , which does not comply with the Activity Specific Standards P5e., f. or h.</p> <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | <p>As relevant to the breached standard;</p> <p>a. Activity Specific Standard P5e. Street scene: Whether the reduced setback will significantly detract from the character of the street taking into account:</p> <p>i. Necessity in order to allow more efficient, practical and/or pleasant use of the remainder of the site or the protection of significant trees, listed heritage items or settings, or natural features on the site,</p> <p>ii. The ability to provide opportunities for garden and tree planting in the vicinity of road boundaries;</p> <p>iii. The openness of the site to the street;</p> <p>iv. The adverse effects of the building intrusion into the street scene or reduction of screening on the outlook and privacy of people on adjoining sites;</p> <p>v. The relevance of other factors in the surrounding environment in reducing the adverse effects, such as existing wide road widths, street plantings and the orientation of existing buildings on adjoining sites.</p> |

| | | |
|------------|--|---|
| | | <p>b. Activity Specific Standard P5f. — Minimum building setbacks from internal boundaries: Whether the reduced setback will significantly detract from the outlook of occupants taking into account:</p> <ul style="list-style-type: none"> i. the need to enable an efficient, practical and/or pleasant use of the remainder of the site, ii. the need to protect significant trees, listed heritage items or settings, or natural features on the site; iii. the need to provide opportunities for garden and tree plantings around buildings; iv. unique or exceptional site specific circumstances that would result in a situation where compliance with the standards would have an unduly restrictive impact on the ability to develop the site; v. the need to provide occupants with adequate levels of daylight and outlook, including impacts from the visual dominance by buildings on the outlook from adjoining sites and buildings, which is out of character with the local environment. <p>c. Activity Specific Standard P5h. site coverage: Whether the infringement is appropriate to its context taking into account the balance of open space and buildings in the area and avoids a significant reduction in the open space character of the area.</p> |
| RD2 | <p>Two or three Residential Units on a site until the 30 April 2018, additional to that otherwise permitted in the District Plan rules, located in a Central City Community Park, Central City Residential, Central City School, Central City Tertiary Education Zone, which do not comply with the Activity Specific Standards P6e., f. or h.</p> | <p>As relevant to the breached standard;</p> <p>a. Activity Specific Standard P6e. Street scene: Whether the reduced setback will significantly detract from the character of the street taking into account:</p> <ul style="list-style-type: none"> i. Necessity in order to allow more efficient, practical and/or pleasant use of the remainder of the site or the protection of significant trees, listed heritage items or settings, or natural features on the site; ii. The ability to provide opportunities for garden and tree planting in the vicinity of road boundaries; |

| | | |
|-------------------|--|---|
| | <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | <ul style="list-style-type: none"> iii. The openness of the site to the street; iv. The adverse effects of the building intrusion into the street scene or reduction of screening on the outlook and privacy of people on adjoining sites; v. The relevance of other factors in the surrounding environment in reducing the adverse effects, such as existing wide road widths, street plantings and the orientation of existing buildings on adjoining sites. <p>b. Activity Specific Standard P6f. - Minimum building setbacks from internal boundaries:</p> <p>Whether the reduced setback will significantly detract from the outlook of occupants taking into account:</p> <ul style="list-style-type: none"> i. the need to enable an efficient, practical and/or pleasant use of the remainder of the site; ii. the need to protect significant trees, listed heritage items or settings, or natural features on the site; iii. the need to provide opportunities for garden and tree plantings around buildings; iv. unique or exceptional site specific circumstances that would result in a situation where compliance with the standards would have an unduly restrictive impact on the ability to develop the site; v. the need to provide occupants with adequate levels of daylight and outlook, including impacts from the visual dominance by buildings on the outlook from adjoining sites and buildings, which is out of character with the local environment. <p>c. Activity Specific Standard P6h. site coverage:</p> <p>Whether the infringement is appropriate to its context taking into account the balance of open space and buildings in the area and avoids a significant reduction in the open space character of the area.</p> |
| <p>RD3</p> | <p>Four or more Residential Units on a site until the 30 April 2018, additional to that otherwise permitted in</p> | <ul style="list-style-type: none"> a. Whether the design and layout of the proposal minimises any potential nuisance on surrounding sites and areas. |

13.13.1.1.2.3 Discretionary activities

There are no Discretionary Activities in Rule 13.13.1.1.

13.13.1.1.2.4 Non-complying activities

| Activity | |
|----------|--|
| NC1 | Any Activity listed in 13.13.1.1.2.1 or 13.13.1.1.2.2 (RD1, RD2, RD3) after 30 April 2022. |

PROPOSAL 6B(ii)

Chapter 13 Central City

13.13.1.2 Rules - Temporary lifting or moving earthquake damaged buildings within the Central City

13.13.1.2.1 How to use these rules

13.13.1.2.1.1 These rules apply only to zones within the Central City.

Note: The rules relating to the temporary lifting or moving of earthquake damaged buildings in Temporary Earthquake Recovery Areas outside of the Central City are in Chapter 6, under Rule 6.4.4. The rules relating to the temporary lifting or moving of earthquake damaged buildings in Residential Suburban, Residential Suburban Density Transition, Residential Medium Density, or Residential Banks Peninsula Zones are included in Chapter 14 under Rules 14.2..2, 14.3.2, 14.4.2 and 14.5.2.

13.13.1.2.2 Activity status tables

13.13.1.2.2.1 Permitted Activities

The activities listed below are permitted activities in any zone within the Central City, if they comply with the Activity Specific Standards set out in this table.

Activities may also be restricted discretionary as specified in Rule 13.13.1.2.2.3.

| Activity | | Activity Specific Standards |
|----------|---|---|
| P1 | Temporary lifting or moving of earthquake damaged buildings | <p>a. Buildings shall not be:</p> <ul style="list-style-type: none">i. moved to within 1m of an internal boundary and/or within 3m of any water body, a listed Significant Tree or listed Heritage Setting or Heritage Item in Rule 13.12 of in the District Plan, natural resources and Council owned structure, archaeological sites, or the coastal marine area;ii. lifted to a height exceeding 3.0m above the height of the existing building. <p>b. The building must be lowered back or moved back to its original position, or a position compliant with the District Plan or consistent with a resource consent, within 12 weeks of the lifting or moving works having first commenced.</p> |

| | | |
|--|--|---|
| | | <p>c. In all cases of a building being moved or lifted, the owners/occupiers of land adjoining the sites shall be informed of the work at least seven days prior to the lift or move of the building occurring. The information provided shall include details of a contact person, details of the lift or move, and the duration of the lift or move.</p> <p>d. The Council's Resource Consents Manager shall be notified of the lifting or moving the building at least seven days prior to the lift or move of the building occurring. The notification must include details of the lift or move, property address, contact details and intended start date.</p> |
|--|--|---|

13.13.1.2.2.2 Controlled Activities

There are no controlled activities.

13.13.1.2.2.3 Restricted Discretionary Activities

The activities listed below are restricted discretionary activities.

Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table.

| Activity | | The Council's discretion shall be limited to the following matters: |
|------------|---|--|
| RD1 | Temporary lifting or moving of earthquake damaged buildings that does not meet the activity specific standards in Rule 13.13.1.2.2.1 P1. Any application arising from this rule will not require written approvals and shall not be publicly or limited notified. | <p>Whether the temporary lifting or moving of the earthquake damaged building is appropriate taking into account:</p> <p>a. The effect of reduced proximity on the amenity and/or operation of any neighbouring sites, water bodies, coastal marine area, archaeological sites, natural resources, or protected heritage items or settings, or significant trees.</p> <p>b. The duration of time that the building will be lifted or moved;</p> <p>c. Any adverse effects on adjoining owners or occupiers relating to shading and building dominance; and</p> |

| | | |
|--|--|--|
| | | d. Occupancy of the neighbouring properties for the duration of the works, the extent to which neighbouring properties are occupied for the duration of the works. |
|--|--|--|

PROPOSAL 6C(ii)

Chapter 13 Central City

13.13.1.3 Rules - Workers' Temporary Accommodation within the Central City

13.13.1.3.1 General Rules for Workers' Temporary Accommodation

13.13.1.3.1.1 These rules apply to activities specified in the Activity Status Tables in Rule 13.13.1.3.2.

13.13.1.3.1.2 The rules that apply to the activities specified in Rule 13.13.1.3 are:
a. the Activity Specific Standards in Rule 13.13.1.3.2;
b. the rules in Chapter 5 Natural Hazards and Chapter 12 Hazardous Substances and Contaminated Land.

13.13.1.3.1.3 Section 13.13.1.3 of the District Plan shall cease to have effect on 31st December 2022.

13.13.1.3.1.4 The provisions under Rule 13.13.1.3 shall only have effect when all of the relevant provisions for the activities are operative.

13.13.1.3.1.5 Within 12 months of the cessation of any workers' temporary accommodation use, a previous use of the site no longer permitted under the District Plan may be reinstated provided that such reinstatement is in accordance with either:
a. an existing use certificate issued under s 139A of the RMA; or
b. a resource consent issued under s114 of the RMA; and
in relation to a. and b. above, the certificate or resource consent was issued prior to conversion to workers' temporary accommodation and was still valid at the time of conversion.
This reinstatement is permitted whether or not the certificate or resource consent would have otherwise lapsed or ceased to have effect.

13.13.1.3.2 Activity Status Tables

13.13.1.3.2.1 Permitted Activities

The activities listed below are permitted activities in the zones indicated if they comply with the Activity Specific Standards set out in this table. Activities may also be controlled, restricted discretionary, or non-complying as specified in Rules 13.13.1.3.2.2, 13.13.1.3.2.3 and 13.13.1.3.2.4.

| Activity | | Activity specific standards |
|-----------|--|--|
| P1 | <p>Workers' temporary accommodation until 31 December 2022 provided through use or conversion of a permanent:</p> <ul style="list-style-type: none"> a. residential unit; b. guest accommodation unit or facility; c. boarding or residential accommodation ancillary to an education activity; d. elderly persons' housing, care facility and/or retirement village | <ul style="list-style-type: none"> a. The permanent activity and building(s) shall otherwise comply with all relevant District Plan requirements or consent conditions for its permanent use; b. The temporary use shall not result in an existing activity on the site failing to comply or increasing the degree of non-compliance with a rule in the District Plan or a resource consent condition; c. On-site management shall be provided for the workers' temporary accommodation. This shall include: <ul style="list-style-type: none"> i. a live-in manager on site, or a nominated occupant where no more than 4 people are accommodated; ii. security services; and iii. on-site rules and policies. |
| P2 | <p>Erection and use of temporary or relocatable buildings, including multi-unit developments, for workers' temporary accommodation until 31 December 2022, in the following zones :</p> <ul style="list-style-type: none"> a. 13.13.1.3.2.4 Non-Complying Activities

| Activity | |
|-----------------|--|
| NC1 | Any workers' temporary accommodation including any temporary buildings established under these rules continuing after 31 December 2022. |
| NC2 | Any workers' temporary accommodation that alters or destroys a listed Heritage Setting or Heritage Item, or Significant Tree, that is not permitted in Rule 13.12 of the District Plan. |
| NC3 | Erection and use of temporary or relocatable buildings, including multi-unit developments, for workers' temporary accommodation except: a. as provided for as a permitted, controlled or restricted discretionary activity in 13.13.1.3 above; b. where the activity would be permitted, controlled, restricted discretionary, or discretionary under the zone rules or any other plan rules. Any application arising with respect to this rule shall not be publicly notified. |
| NC4 | Workers' temporary accommodation in the Specific Purpose (Flat Land Recovery) Zone. |

APPENDIX 13.1 WORKERS' TEMPORARY ACCOMMODATION - DESIGN GUIDE

1.1 Introduction

- a. Why has this guide been developed?
 - i. This guide has been developed because special provision needs to be made to accommodate the additional workers and their families who will be in greater Christchurch for the rebuild. Housing demand analysis suggests additional accommodation will be needed for this substantial number of workers, many of whom will be coming from outside the region. Some will be accommodated in permanent housing (either existing or new), some in other types of accommodation such as motels, and others will be accommodated in temporary housing buildings developed specifically to accommodate construction workers.
 - ii. An important part of meeting this housing demand will be to offer options for temporary accommodation. For example, bulk unit developments may be desirable for the large construction gangs who are expected to temporarily migrate to greater Christchurch. The demand for this type of development, particularly at the numbers anticipated, is unique in New Zealand.
 - iii. This imperative for workers' accommodation is for the short term only. At the same time, this accommodation still needs to be of high quality and suitably located, have minimal if any impacts on surrounding neighbourhoods, and be effectively operated. This guide therefore responds to the gap in current guidance on this unique type of accommodation.
 - iv. The purpose of this guide is to:
 - A. outline considerations for planning and designing workers' temporary accommodation in a way that encourages innovative and high-quality development
 - B. provide guidance to applicants and councils on the key considerations in determining resource consent applications
 - C. provide information to existing residents and communities on critical considerations for workers' temporary accommodation.
- b. How to use the guide
 - i. This guide complements District Plan provisions for workers' temporary accommodation in section 6.4.5. It sets out considerations and good practice examples. However, as each case will be different, the various considerations and examples may be more relevant in some situations than in others.
- c. Other consents and approvals
 - i. This guide is specifically about design and planning considerations for workers'

temporary accommodation. It is to assist in assessments by Christchurch City Council under the Resource Management Act. It is not intended to apply to building consents or other regulatory assessments. In addition to resource consent, a workers' accommodation project may require consent or approval under the Building Act, Health Regulations, or under the Resource Management Act from Environment Canterbury. A separate information sheet is available on broader regulatory requirements.

d. Principles

- i. This guide has four overarching principles for the development of workers' temporary accommodation.
 - A. Workers' temporary accommodation is designed to respond to the characteristics of the locality and avoid, remedy or mitigate significant adverse effects on the characteristics of local neighbourhoods.
 - B. Workers' temporary accommodation provides high-quality accommodation with good on-site amenity.
 - C. On-site management and operation of workers' temporary accommodation effectively contribute to high-quality accommodation for occupants and minimise impacts on surrounding neighbourhoods.
 - D. Workers' temporary accommodation is genuinely temporary in place no longer than 31 December 2022.

1.2 Guidelines for location suitability

- a. It is acknowledged that workers' temporary accommodation is temporary and may be of a modular, repeated or re-locatable style that would not normally be expected in a residential or commercial environment. It is not expected that temporary accommodation can fully integrate into an existing community, nor is it expected that temporary accommodation will have only minor effects. However, site selection, site design and building design can help to avoid significant adverse effects on existing neighbourhoods and to provide suitable accommodation for occupants.

| Location suitability considerations | Examples of good practice |
|--|--|
| Consideration 1: Location suitability a. Whether a site is suitable for workers' temporary accommodation will be assessed on a case by case basis, taking into account: i. the scale of the | 1. Key measures a. Location in the Christchurch central city is encouraged. b. Location within existing urban areas, particularly in existing residential or commercial areas, is encouraged. c. Locations within incompatible adjoining or nearby uses should be avoided. Large developments should not be undertaken next to sensitive activities such as schools, because they may affect the amenity, character or social aspects of the area. Sites should not be chosen if adjoining uses |

| | |
|--|---|
| <p>development</p> <ul style="list-style-type: none"> ii. who will occupy the development and the nature/location of the occupants' work iii. transport options iv. adjoining uses v. the availability and capacity of infrastructure to service the site vi. physical constraints and hazards such as flood risk | <p>generate significant effects on the workers that are not mitigated (eg noise, discharges or hazardous substance risk).</p> <ul style="list-style-type: none"> d. Water (including a water supply for firefighting consistent with the New Zealand Fire Service Firefighting Water Supplies Code of Practice (SNZ PAS 4509:2008), wastewater and stormwater infrastructure should be available to the site and have the capacity required for the number of workers in the accommodation. Locations within the existing urban area have more infrastructure availability. Areas where infrastructure capacity is not currently available or is particularly fragile is shown as the EQ damaged area on the Christchurch Wastewater Overview Map below. This information is subject to change over time. Current information on the capacity of the wastewater network is available from Council. e. The land should be physically suitable for this type of accommodation. It will usually be necessary to avoid areas of flood risk, sensitive aquifer zones, sites on the listed land-use register, or other sites with physical constraints, unless the specific site, design or duration of the accommodation provides exceptions for developing there. <p>2. Other considerations</p> <ul style="list-style-type: none"> a. Location in medium or high density residential zones may be more appropriate than low density residential zones. b. Location near to the work site(s) and near to public services and facilities such as retail and entertainment areas is encouraged c. The suitability of the location will depend on the scale, nature and term of the development. For example, if migrant workers are living in accommodation on short-term rotation, (eg three month rotation for a five year period), a development may be acceptable in an industrial zone or close to the airport, but this location is less likely to be acceptable for workers who are employed for a continuous 10 year period. d. Sites should not displace permanent uses that are planned within an overlapping timeframe. For example, it would be inappropriate to choose a greenfield residential site that will be needed for permanent residential development before the temporary accommodation units are due for removal. Similarly, it would be inappropriate to |
|--|---|

| | |
|--|---|
| | <p>use a commercial building if that type of building is in high demand due to displacement.</p> <ul style="list-style-type: none"> e. An acceptable size of development will be smaller in a low density residential area than in a high density residential, commercial or mixed use area. f. The nature of transport arrangements to be provided for occupants will determine the appropriate distance between the accommodation site and the primary work site(s). For example, a distance within 5km would be desirable if no transport is to be provided between the two sites, but a distance of up to 10km would be acceptable if transport is provided. g. Selecting a location where public transport options are available, such as to work sites and retail/entertainment centres, is encouraged. h. The traffic and transport effects of a location include how the development will affect amenity, traffic safety and transport efficiency. The nature of the effects depends on the size of the development and the type of road used for access to the project site. Selecting a site which avoids significant traffic or transport effects is encouraged. |
|--|---|

1.3 Guidelines for site layout and building design

- a. The standard of the design of buildings and the layout and orientation of buildings and activities on the site are a major influence on both the quality of the accommodation and its effects on the surrounding neighbourhood. Although the development is temporary, it may be the primary residence for an occupant for a number of months or years. A temporary accommodation project may be larger and more intense than anticipated and may have some temporary adverse effects, but site design can help to minimise the effects on the surrounding neighbourhood.

| Site layout and building design considerations | Examples of good practice |
|--|---|
| <p>Consideration 2: Minimising effects on existing neighbourhoods</p> <ul style="list-style-type: none"> a. It is desirable that developments are compatible with the streetscape and mitigate potential effects on the | <ul style="list-style-type: none"> 1. Key measures <ul style="list-style-type: none"> a. Buildings such as the manager’s residence, site office, communal facility, or other buildings that are not individual units should be located on a street frontage if they assist in creating a compatible street frontage and a ‘street address’. b. Facilities or services on the site that are to be available for public or community use should be located on street frontages to limit public access |

| | |
|--|---|
| <p>amenity of an established environment. This is a particular consideration for residential environments.</p> | <p>through the site. This will also help to create a ‘street address’.</p> <ul style="list-style-type: none"> c. Fencing and landscaping along road boundaries should be provided. Road fencing should not provide extensive lengths of solid screening. Any fencing above 1m height should be at least 50 per cent transparent. d. Building placement and orientation should internalise effects such as noise or lighting rather than directing effects towards neighbouring sites. Design and layout should achieve the noise standards for the zone in the District Plan. Screening or landscaping around outdoor activities that generate effects also helps to internalise effects. <p>2. Other considerations</p> <ul style="list-style-type: none"> a. Screen fencing between 1.8m and 2m should be provided along boundaries adjoining residential neighbours. Fencing should be designed to be compatible with the adjoining use; for example, security fencing is not compatible with a residential environment. Landscaping along boundaries is also encouraged. b. A separation between residential boundaries and buildings, service areas and recreation areas is encouraged. For example, it might take the form of a 3m setback. c. The site can be designed to link with existing neighbourhood services, for example by providing an appropriate location for vehicle and pedestrian access points. d. The working patterns of the occupants and the timing of traffic movements will influence how compatible the development is with surrounding uses. For example, a large site with shift workers travelling late at night may not be suitable in a residential area. e. Location and design of carparking and vehicle accessways should minimise internal traffic movement, minimise vehicle movements and avoid locations next to neighbouring sites. |
| <p>Consideration 3: District Plan guidance on site and building design</p> <ul style="list-style-type: none"> a. The District Plan provides relevant guidance on appropriate site and | <ul style="list-style-type: none"> 1. Key measures <ul style="list-style-type: none"> a. If buildings and related services comply with the standards in the District Plan for permanent buildings, the project design is more likely to be similar to what the District Plan anticipates for the location. This measure is particularly relevant in the residential environment, and should be given particular attention near site boundaries, for |

| | |
|--|---|
| <p>building design to achieve the outcomes anticipated for the zone.</p> | <p>example, in relation to height and setbacks from boundaries.</p> |
| <p>Consideration 4: Unit and building design</p> <p>a. The appearance and design of workers' temporary units and buildings is not expected to be to the standard anticipated for permanent accommodation. However, the choice of materials, type of construction, building size, design, and layout can contribute to a development that minimises impact on the neighbourhood while providing quality living space for occupants.</p> | <p>1. Other considerations</p> <p>a. Where communal facilities are provided (for example, cooking, dining, showers or recreational facilities), individual units can be small, for example a floor area of 14m² may be appropriate.</p> <p>b. Where units are completely self-contained with no communal or on-site facilities, individual units should be larger to provide more living space within each unit.</p> <p>c. Buildings that are highly visible from adjoining residential sites can use materials, finishes, designs and techniques to minimise effects. For example, large continuous walls could be broken, or changes in building height and scale could be used to be more compatible with the building bulk anticipated by the District Plan.</p> <p>d. The design and appearance of large communal facility buildings are of particular importance as these buildings are often a focus and significant visual feature of a site.</p> <p>e. There may be location-specific considerations relevant to building design. For example, design, construction and operation to reduce noise may be relevant in some locations near the airport or heavy industry for noise insulation. Another example of location-specific considerations would be effects relevant to a special amenity area identified in the district plan.</p> <p>f. Providing weather protection at unit and building entrances is encouraged.</p> <p>g. Units can be designed, constructed and located to make the most of the sun and to provide a warm and dry living environment.</p> <p>h. Building design should facilitate building removal or relocation as proposed in the decommissioning strategy.</p> |
| <p>Consideration 5: On-site facilities and services</p> <p>a. The need for on-site facilities and services will be identified on a case-by-case basis depending on the</p> | <p>1. Other considerations</p> <p>a. Sites should either be connected to council water, stormwater and wastewater networks, or be self-contained. Each site will need to determine the expected demand on services and how that demand will be met.</p> <p>b. Communal facilities and services provided on-site will depend on the needs of the occupants. For example, a recreation facility may be warranted on a</p> |

| | |
|---|---|
| <p>nature and size of the development. On-site facilities will help to improve the quality of accommodation, contribute to the successful operation of the site, and reduce any impact beyond the site.</p> | <p>site of more than 100 workers. Alternatively, on-site facilities may not be necessary where public services and facilities are operating close by.</p> <ul style="list-style-type: none"> c. Where communal recreation or open space is provided, it is not necessary to provide open space with each unit, but this design is encouraged. d. There needs to be servicing arrangements and adequate space for this. For example, the site may manage its own solid waste or may rely on the council service. The site may offer laundry service or laundry facilities may be contained in each unit. |
| <p>Consideration 6: Parking and access</p> <ul style="list-style-type: none"> a. Providing appropriate parking and access contributes to meeting the needs of occupants while also avoiding or mitigating effects on the streetscape. Parking needs will depend on the characteristics of the occupants and the transport services provided. | <ul style="list-style-type: none"> 1. Key measures <ul style="list-style-type: none"> a. Where communal transport services are provided or public transport will be used between the accommodation site and work site, a minimum of one parking space per four occupants should be provided. Where no transport services are provided, the District Plan parking requirements provide relevant guidance. b. Where transport services are provided, a bus or van drop-off/pick-up area should be provided within the site. c. Communal transport services to both work sites and other activities should be provided on sites with more than 100 occupants. 2. Other considerations <ul style="list-style-type: none"> a. Where developments accommodating over 200 people have road frontage to the Strategic Road Network (as defined in the Canterbury Regional Land Transport Strategy), access should be provided to another road unless this is not reasonably practicable. b. Grouping parking spaces together will reduce vehicle movements within the site. c. Avoid parking areas and accessways that adjoin residential neighbours as far as possible. d. Providing secure, covered cycle parking is encouraged. |
| <p>Consideration 7: Incorporating safety and security into design</p> <ul style="list-style-type: none"> a. Adopting the principles of crime prevention through environmental design (CPTED) and limiting the potential for hazards and risks | <ul style="list-style-type: none"> 1. Key measures <ul style="list-style-type: none"> a. Site layout and features should incorporate key crime prevention through environmental design (CPTED) principles. For example, they should provide good internal site lighting, and avoid high fencing or planting at the street frontage. A reference to the national CPTED guidelines is provided at the end of this guideline. 2. Other considerations <ul style="list-style-type: none"> a. A locking system for the doors and windows of each unit will provide security. |

| | |
|---|---|
| <p>will contribute to providing accommodation that is safe for the occupants and local community.</p> | <p>b. There should be suitable access for emergency vehicles and on-site emergency management procedures.</p> |
|---|---|

1.4 Guidelines for on-site management and operation

- a. The quality of workers' temporary accommodation projects will be improved through comprehensive management. In addition, the potential adverse impacts are likely to be reduced where accommodation is comprehensively managed as a 'complex'. Depending on the size and nature of the accommodation, management as a complex may include providing services such as cleaning, catering, security, transport, health services, social support and communal recreation facilities.

| On-site management considerations | Examples of good practice |
|---|--|
| <p>Consideration 8: On-site management arrangements</p> <p>a. Effective on-site management contributes significantly to the quality and successful operation of accommodation, and minimises potential impacts on the local community.</p> <p>b. On-site management linked to employment arrangements can be most effectively maintained and administered on an on-going basis.</p> | <p>1. Key measures</p> <p>a. On-site management arrangements should be in place. The type of on-site management involved will depend on the size and nature of the complex. For example, for accommodation for less than 10 people, a nominated occupant could provide the on-site management role. For medium sized complexes, an appointed professional property manager could provide management services. For larger complexes a full time live-in manager would be required.</p> <p>2. Other considerations</p> <p>a. Depending on the size and nature of the project, a written management plan will set out all site management procedures and 'rules' including:</p> <ul style="list-style-type: none"> i. roles and responsibilities ii. procedures for communication with neighbours and community iii. servicing, cleaning and maintenance arrangements iv. security and crime prevention measures v. drug and alcohol policy vi. management of transport of workers vii. health and safety measures viii. emergency management ix. animal control |

| | |
|--|---|
| | <ul style="list-style-type: none"> x. catering arrangements xi. noise management xii. on-site behaviour expectations xiii. management of disturbances xiv. parking management xv. public facility management xvi. management of requests and complaints. xvii. linking the on-site ‘rules’ to employment arrangements increases the status of those rules. It is possible to make this more formal link if occupancy is arranged through a specific employer. |
| <p>Consideration 9: Support services</p> <p>a. Providing workers with broader support will help to improve the overall quality of accommodation and help to integrate them into the local community.</p> | <ul style="list-style-type: none"> 1. Other considerations <ul style="list-style-type: none"> a. Providing appropriate support services - for example, pastoral care and migrant support - is encouraged. |

1.5 Guidelines for decommissioning

- a. As the standard District Plan expectations are being varied to provide for this special type of accommodation, it is critical that the temporary buildings are removed so that each development is indeed temporary and does not permanently affect the environment. A decommissioning strategy will provide confidence that these buildings are genuinely temporary and will set up the mechanisms for their removal.

| Decommissioning considerations | Examples of good practice |
|---|---|
| <p>Consideration 10: Decommissioning strategy</p> <p>a. Workers’ temporary accommodation will be assessed on the basis that it does not become permanent accommodation.</p> | <ul style="list-style-type: none"> 1. Key measures <ul style="list-style-type: none"> a. A decommissioning strategy should be in place to confirm the long-term plan for buildings, phasing of decommissioning and removal of buildings and how the site will be reinstated ready for its anticipated permanent use. b. All temporary units must be removed by 31 December 2022, or earlier. 2. Other considerations |

| | |
|--|--|
| <p>b. An enforceable decommissioning strategy is a critical component of any workers' temporary accommodation project.</p> | <ul style="list-style-type: none"> a. Building design should be a consideration in the decommissioning strategy to ensure design does not inhibit the implementation of the strategy. b. Use of legal instruments to assist making future owners aware of the removal requirement or provide an additional means of assuring removal are encouraged, for example an encumbrance may be registered. c. After it has been used for workers' temporary accommodation, a site may need to be remediated to make it suitable for its anticipated long-term use. d. If landscaping of the site has been completed, it may be possible to retain some or all of the landscaping at the reinstatement stage. |
|--|--|

1.6 Guidelines for communicating with neighbours

- a. It is important to keep adjoining neighbours and the wider neighbourhood informed about the project as it develops and also during operation so that a project can respond to perceived or actual concerns about the accommodation. Communication procedures will normally be part of the site management plan but are also a consideration during the design phase. While the new District Plan provisions may not require the approval of affected parties and may not require limited notification for a workers' temporary accommodation project, communicating with neighbours is encouraged.

| Communication considerations | Examples of good practice |
|---|--|
| <p>Consideration 11: Communication</p> <ul style="list-style-type: none"> a. Communicating with neighbours throughout the design, development and operation of the accommodation project will help to contribute positively to the local neighbourhood and minimise effects on neighbours. | <ul style="list-style-type: none"> 1. Other considerations <ul style="list-style-type: none"> a. A written communication statement or plan can identify: <ul style="list-style-type: none"> i. key points of contact for the accommodation project during the design, development and operation of the complex ii. contact details of immediate neighbours and any local neighbourhood groups iii. when neighbours will be notified and about what. b. Key times to notify neighbours may be during site selection, when the design is complete, when construction is due to start, when occupation commences, key phases of occupancy changes, and when decommissioning commences. More regular communication during operations may be appropriate depending on the size of the accommodation complex. c. Information that may be of interest to neighbours includes the site design, occupancy numbers, staffing, site management rules, on-site management arrangements, safety/security arrangements and occupants' employment locations. |

| | |
|--|---|
| | <p>d. Information that may be of interest to occupants includes opportunities to participate in or support community activities, sport and other recreational or cultural activities.</p> <p>e. Larger accommodation projects may hold regular meetings or events with neighbours to discuss operational matters.</p> |
|--|---|

1.8 Christchurch Wastewater Overview Map

- a. The following map is intended to provide general guidance on the status of the wastewater network as of January 2015. This information is subject to change over time. Current information on the capacity of the wastewater network is available from Council and should be sought at the time of application.

The following appendices, table and figure are referred to in Rule 6.4.5.2.1 (e) and (f) and are from the Transport Chapter. There are no proposals in this hearing on temporary earthquake recovery activities to amend these provisions of the Transport Chapter.

Appendix 7.1 — Parking space requirements

Table 7.4 - Minimum car park dimensions

| | Type of use | Parking angle | Parking stall width (m) (refer to q) | Aisle width (m) (refer to Note 4) | Parking stall depth (m) (refer to r) | Over hang (m) | Total width (stall depth and aisle width) (m) |
|----|--|---------------|---|--------------------------------------|---|---------------|---|
| a. | Long term (refer to Note 1) | 90° | 2.4 | 6.6 | 5.0 | 0.6 | 11.6 |
| b. | Medium term (refer to Note 2) | | 2.5 | 6.4 | | | 11.4 |
| c. | Short term (refer to Note 3) | | 2.6 | 6.2 | | | 11.2 |

| | Type of use | Parking angle | Parking stall width (m) (refer to q) | Aisle width (m) (refer to Note 4) | Parking stall depth (m) (refer to r) | Over hang (m) | Total width (stall depth and aisle width) (m) |
|----|--|---------------|---|--------------------------------------|---|---------------|---|
| m. | Medium term (refer to Note 2) | | 2.4 | 3.8 | | | 7.8 |
| n. | Short term (refer to Note 3) | | 2.5 | 3.5 | | | 7.5 |
| | | | | | | | |
| o. | Car parks for people with disabilities | Parallel | 3.6 | 3.3 (one way) 5.5 (two way) | 6.1 | | |
| | | | | | | | |
| p. | All users | Parallel | 2.0 | 3.3 (one way) 5.5 (two way) | 6.1 | | |

- q. Stall widths shall be increased by 300 millimetres where they abut permanent obstructions such as a wall, column or other permanent obstruction. Where there is such an obstruction on both sides of a parking space the minimum width shall be increased by 600mm.
- r. The stall depth may be reduced by the corresponding overhang length if a low kerb allows overhang, but this overhang shall not encroach any pedestrian facilities or required landscape areas.
- s. In any car park structure, columns shall be set back a minimum of 300 millimetres from the parking aisle and shall not be located so as to obstruct the opening of car doors from within any parking space.

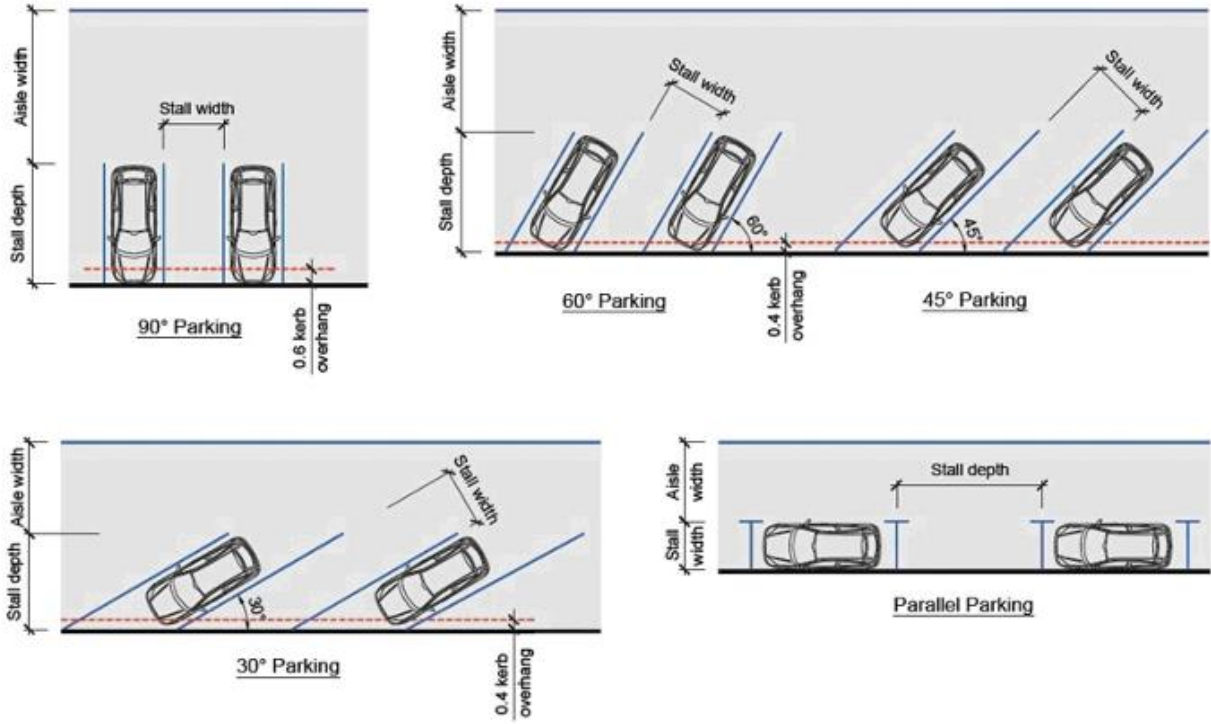

Figure 7.1: Car park dimensions

Appendix 7.4 — 85 percentile design motor car

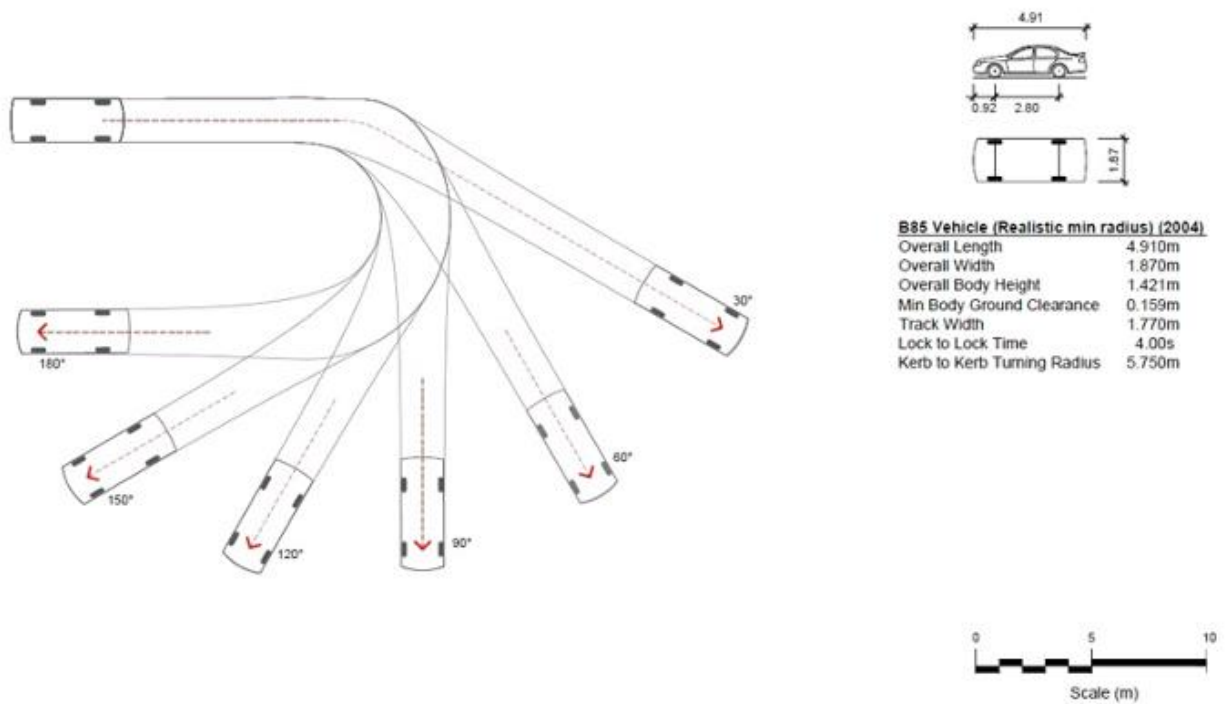

Figure 7.5 - 85 percentile design motor car

Note: The source of this tracking curve is from Australian/New Zealand Standard Offstreet Parking, Part 1: Car Parking Facilities, AS/NZS 2890.1:2004

Appendix 7.5 — 99 percentile design vehicle

Figure 7.6 - 99 percentile design vehicle

Note: The source of this tracking curve is from Australian/New Zealand Standard Offstreet Parking, Part 1: Car Parking Facilities, AS/NZS 2890.1:2004

Appendix 7.7 — Access design and gradient

1. All vehicle access to and within a site shall be in accordance with the standards set out in Table 7.10 below.
 - a. Any vehicle accesses longer than 50 metres and with a formed width less than 5.5 metres wide shall provide passing opportunities (with a minimum width of 5.5 metres) at least every 50 metres, with the first being at the site boundary.
 - b. Where a vehicle access serves nine or more parking spaces or residential units and there is no other pedestrian and/or cycle access available to the site then a minimum 1.5 metres wide space for pedestrians and/or cycle shall be provided and the legal width of the access shall be increased by 1.5 metres.
 - c. All vehicle access to and within a site in a residential zone shall allow clear visibility above 1 metre for a width of 1.5 metres either side of the entrance for at least 2 metres measured from the road boundary.
 - d. Where parking spaces are provided in separate areas, then the connecting vehicle access between the parking areas shall be in accordance with the standards in Table 7.10 based on the number of parking spaces served.
 - e. The minimum and maximum widths shall be measured at the road/property boundary and apply within the site until the first vehicle control point.

Notes:

1. See 7.2.3.4 Rule 4 for when on-site manoeuvring is required.
2. The difference between minimum formed width and minimum legal width may be utilised for planting.

Table 7.10- Minimum requirements for private ways and vehicle access

| | Activity | Number of marked parking spaces provided (For residential activities, the number of residential units) | Minimum legal width (m) | Minimum formed width (m) (refer to a) | Maximum formed width (m) |
|------|----------------------------------|--|-------------------------|---------------------------------------|--------------------------|
| i. | Residential activity and offices | 1 to 3 | 3.3 (refer to c) | 2.7 | 4.5 |
| ii. | Residential activity and offices | 4 to 8 | 3.6 (refer to c) | 3.0 | 6.0 |
| iii. | Residential activity and offices | 9 to 15 | 5.0 (refer to b and c) | 4.0 | 6.0 |
| iv. | All other activities | 1 to 15 | 5.0 (refer to b) | 4.0 | 7.0 |
| v. | All activities | More than 15 | 6.5 (refer to b) | 5.5 | 7.0 |

Figure 7.7- Explanation of the Location of Access Design Standards

2. The maximum gradient at any point on a vehicle access shall be in accordance with Table 7.11.

Table 7.11- Maximum gradients for vehicle access

| | Parking spaces provided (For residential activities, the number of residential units) | Length of vehicle access | Maximum gradient |
|------|---|--------------------------|------------------|
| i. | 1 to 2 | Any length | 1 in 4 (25%) |
| ii. | 3 to 6 | < 20m | 1 in 4 (25%) |
| iii. | 3 to 6 | ≥ 20m | 1 in 5 (20%) |
| iv. | More than 6 | < 20m | 1 in 5 (20%) |
| v. | More than 6 | ≥ 20m | 1 in 6 (16%) |

Note:

1. The maximum gradient shall be measured on the inside of a curved vehicle access (see Figure 7.8).

Figure 7.8 - Illustration showing an inside of a curved vehicle access

- a. The maximum change in gradient without a transition shall be no greater than 1 in 8 (12.5%). Changes of grade of more than 1 in 8 (12.5%) shall be separated by a minimum transition length of 2 metres (see Figure 7.9 for an example).

Figure 7.9 - Example of correct and incorrect vehicle access gradient transition.

- b. Where the gradient exceeds 1 in 10 (10%) the vehicle access is to be sealed with a surface that enables safe access in wet or icy conditions.
- c. Where a vehicle access serves more than six car parking spaces (or more than six residential units) and a footpath is provided on the frontage road, the gradient of the first 4.5 metres measured from the road boundary into the site shall be no greater than 1 in 10 (10%) (see Figure 7.10 for an example).

Figure 7.10 - Example of correct and incorrect vehicle access gradients in relation to footpaths.

Appendix 7.8 — Queuing spaces

1. On-site queuing spaces shall be provided for all vehicles entering a parking or loading area in accordance with Table 7.12.
 - a. Queuing spaces shall be available during hours of operation.
 - b. Where the parking area has more than one access the number of parking spaces may be apportioned between the accesses in accordance with their potential usage for the calculation of the queuing space.
 - c. Queuing space length shall be measured from the road boundary to the nearest vehicle control point or point where conflict with vehicles already on the site may arise (see Figure 7.7).

Table 7.12 – Queuing spaces

| | | Minimum queuing space (m), if access serves: | |
|------|--|--|---|
| | Number of parking spaces (For residential activities, the number of residential units) | Car parks accessed from local and collector roads | Car parks accessed from arterial roads |
| i. | 4 - 10 | 0 | 7.5 |
| ii. | 11 - 20 | 7.5 | 10.5 |
| iii. | 21 - 50 | 10.5 | |
| iv. | 51 - 100 | 15.5 | |
| v. | 101 - 150 | 20.5 | |
| vi. | 151 or over | 25.5 | |

Appendix 7.9 — Visibility splay

Visibility Splay

Figure 7.11 - Visibility splay measurement

1. The visibility splay areas (as shown on Figure 7.11) are to be kept clear of obstructions in all cases for visibility reasons. Landscaping or other features may be contained within the visibility splay areas, as long as it does not exceed 0.5 metres in height.
2. If the access is 4.5 metres wide or greater, and the access provides for two-way traffic flow, then there is no requirement to provide a visibility splay on the side of the access marked with an 'X' in Figure 7.11.

ATTACHMENT C

**TEMPORARY ACTIVITIES RELATED TO EARTHQUAKE RECOVERY
(AND RELEVANT DEFINITIONS)**

**CHAPTER 6 General Rules and Procedures
Contents**

6.4 Temporary earthquake recovery activities

6.4.2 Rules - Displaced activities and storage facilities in Group 1 Zones (excludes the Central City)

6.4.2.1 How to use these rules and duration of rules

6.4.2.1.1 These rules apply to activities specified in the Activity Status Tables in Rule 6.4.2.2 in locations outside of the Central City and in the zones identified as "Group 1" below:

| Group | Zone | The rules applying to this zone can be found in: |
|--------------|--|---|
| Group 1 | Commercial Banks Peninsula Commercial Core (except New Brighton) Commercial Fringe Commercial Local Commercial Retail Park Industrial General Industrial Heavy (except Springs Road) Industrial Office Industrial Park (except Wairakei Road and Memorial Avenue) Residential Banks Peninsula Residential Conservation Residential Medium Density Residential Suburban Residential Suburban Density Transition | Section 6.4.2 |
| Group 2 | Open Space (all zones) | Section 6.4.3 |

| | | |
|--------------|---|-----------------|
| | Papakāinga Residential Bach Residential Guest Accommodation Residential Hills Residential Large Lot Residential New Neighbourhood Residential Small Settlement Rural (all zones) Specific Purpose (all zones) | |
| Central City | All Central City | Section 13.14.1 |

6.4.2.1.2 The Rules that apply to the activities specified in Rule 6.4.2.2 are:

- a. the Activity Specific Standards in Rule 6.4.2.2
- b. the rules in Chapter 5 Natural Hazards.

6.4.2.1.3 The permitted activities under 6.4.2.2.1 are only permitted when all of the relevant standards applying to the permitted activity are operative.

6.4.2.2 Activity status tables

6.4.2.2.1 Permitted activities

The activities listed below are permitted activities in the zones indicated if they comply with the Activity Specific Standards set out in this table and the rules in Chapter 5 Natural Hazards.

Activities may also be restricted discretionary or non-complying as specified in Rules 6.4.2.2.2 and 6.4.2.2.3.

| Activity | Activity specific standards |
|---|---|
| <p>P1</p> <p>Any temporary activity established under either clause 7(3)(a) or 8(3)(a) of the Canterbury Earthquake (Resource Management Act Permitted Activities) Order 2011 that is in accordance with either:</p> <p>a) the provisions of a Public Notice published on 9 April 2011, 21 December 2011 and 23 October 2013; or</p> <p>b) a public notice published for a site specific approval that would expire on 20 April 2016 are permitted activities up to 30 April 2018</p> | <p>a. The activity shall comply with all standards specified in the relevant Public Notice.</p> |

| | | |
|-----------|--|--|
| <p>P2</p> | <p>Office, education activity, pre-school, health care facilities, places of assembly until the 30 April 2018, located in a, Residential Banks Peninsula, Residential Conservation, Residential Medium Density, Residential Suburban, or Residential Suburban Density Transition zone.</p> | <p>a. The activity moved from the land or building it occupied prior to the 2010 and 2011 Canterbury Earthquakes because that land or building could not be occupied due to:</p> <ul style="list-style-type: none"> i. the building becoming uninhabitable or demolished as a consequence of the 2010 and 2011 Canterbury Earthquakes; or ii. the building or land being evacuated to enable the repair of the land or building that was damaged by the 2010 and 2011 Canterbury Earthquakes; or iii. a risk to people and property from the continued use of the land or building as a consequence of the 2010 and 2011 Canterbury Earthquakes, including risks from neighbouring properties. <p>b. The activity shall be connected to or be serviced by:</p> <ul style="list-style-type: none"> i. a means of sanitary sewage disposal; ii. a potable water supply that meets the standards of the Canterbury District Health Board and a water supply for firefighting consistent with the New Zealand Fire Service Firefighting Water Supplies Code of Practice (SNZ PAS4509:2008); iii. a method of discharging stormwater that does not discharge stormwater on to adjoining properties or adversely affect water quality; and |
|-----------|--|--|

| | | |
|--|--|---|
| | | <p>iv. a power supply.</p> <p>c. New structures must be relocatable and must be relocated off the site by 30 April 2018, unless they comply with the District Plan rules. Sites and existing structures must be remediated to their state prior to the temporary earthquake recovery activity being located there, or a state in compliance with District Plan rules. All structures and sites must be left clean and tidy.</p> <p>d. Any new structures shall comply with the height and recession plane standards for the relevant zone.</p> <p>e. Any new structures must be set back at least 3m from any road boundary or must comply with any setback from road boundary standards in the relevant zone, whichever is the lesser.</p> <p>f. Any new structures shall be set back at least 3m from any boundary with a site in a Residential zone or must comply with the boundary setback standards in the relevant zone, whichever is the lesser.</p> <p>g. The activity shall provide at least 50% of the car parks required by Table 7.2 and Table 7.3 in Appendix 7.1 – Parking space requirements. Car parks shall be designed in accordance with the standards in Appendix 7.1. Manoeuvring for parking and loading areas shall be provided in compliance with Rule 7.2.3.4. Any additional vehicle access shall be designed in accordance with Rule 7.2.3.7 and shall provide vehicle crossings that comply with Rule 7.2.3.8.</p> |
|--|--|---|

h. The activity shall comply with Rule 7.2.3.10 High Trip Generators.

i. The activity shall restrict its hours of operation to the following:

| | Activity | Permitted hours of operation |
|------|----------------------|---|
| i. | Office | 7am—9pm Monday to Friday; 7am-1pm Saturday, Sunday and public holidays. |
| ii. | Education activity | 7am-9pm Monday to Saturday; Closed on Sunday and public holidays. |
| iii. | Pre-school | 7am-9pm Monday to Friday; 7am-1pm Saturday, Sunday and |
| iv. | Health care facility | 7am-9pm Monday to Sunday and public holidays. |
| v. | Place of assembly | 7am-9pm Monday to Saturday Closed on Sunday and public holidays, except churches and church halls. |

| | | |
|--|--|--|
| | | <p>j. The activity shall comply with all standards for that zone in the Noise provisions under Rule 6.1.</p> <p>k. The activity is not required to comply with any additional acoustic insulation requirements or standards for the Port Influences Overlay, Airport Noise Contours or Residential Medium Density zones.</p> <p>l. The activity shall comply with all standards for that zone in the Outdoor Lighting and Glare provisions under Rule 6.3.</p> <p>m. The activity shall comply with all standards for that zone in the Hazardous Substances and Contaminated Land provisions in Chapter 12.</p> <p>n. The activity must not result in the alteration or destruction of any listed Significant Tree or Heritage Setting or Heritage Item that is not permitted in Chapter 9 of the District Plan.</p> <p>o. The activity must have at least one access to an existing road that is not a driveway shared by more than one residential unit.</p> <p>p. The activity must not involve subdivision of land.</p> <p>q. Outdoor advertisements are restricted to a maximum area of 2m² or the area and number provided for in the relevant zone, whichever is greater.</p> <p>r. Any Outdoor advertisements shall not be internally or externally illuminated.</p> <p>s. Any Outdoor advertisements shall be designed to comply with the traffic safety standards for outdoor advertisements in Rule 6.8.4.1.</p> |
|--|--|--|

| | | |
|----|--|---|
| | | <p>t. The activity shall accommodate a maximum of 10 staff and/or students (total).</p> <p>u. Pre-schools existing prior to the 2010 and 2011 Canterbury Earthquakes may accommodate a maximum increase of 30% (total) of children and staff in addition to the situation prior to the earthquakes.</p> <p>v. Any outdoor storage area shall:</p> <ul style="list-style-type: none"> i. not be located in a setback. ii. if used for a continuous period of more than 1 year, shall be screened by fencing, landscaping or buildings so as not to be visible 1.8m above ground level on any adjoining road or residential property. <p>w. There shall be only one office, education activity, pre-school, health care facility, or place of assembly permitted under Rule 6.4.2 on any one site in a Group 1 Residential Zone.</p> <p>x. The activity and/or buildings shall be located greater than:</p> <ul style="list-style-type: none"> i. 12 metres from the centre line of a 110kV or 220kV National Grid transmission line and 12 metres from a foundation of an associated support structure; ii. 10 metres from the centre line of a 66kV National Grid transmission line and 10m from a foundation of an associated support structure. |
| P3 | Retail activity, office, guest accommodation, food and beverage outlets, entertainment facilities, education activity, health care facilities, pre-schools, and places of assembly until the 30 April 2018, located in one of the following zones - Commercial | <p>a. The activity moved from the land or building it occupied prior to the 2010 and 2011 Canterbury Earthquakes because that land or building could not be occupied due to:</p> <ul style="list-style-type: none"> i. the building being uninhabitable or demolished as |

| | |
|---|--|
| <p>Core (except New Brighton); Commercial Local; Commercial Fringe; Commercial Banks Peninsula; Commercial Retail Park; Industrial General.</p> | <p>a consequence of the 2010 and 2011 Canterbury Earthquakes; or</p> <p>ii. the building or land being evacuated to enable the repair of the land or building that was damaged by the 2010 and 2011 Canterbury Earthquakes; or</p> <p>iii. a risk to people and property from the continued use of the land or building as a consequence of the 2010 and 2011 Canterbury Earthquakes, including risks from neighbouring properties.</p> <p>b. The activity shall be connected to or be serviced by:</p> <p>i. a means of sanitary sewage disposal;</p> <p>ii. a potable water supply that meets the standards of the Canterbury District Health Board and a water supply for firefighting consistent with the New Zealand Fire Service Firefighting Water Supplies Code of Practice (SNZ PAS4509:2008);</p> <p>iii. a method of discharging stormwater that does not discharge stormwater on to adjoining properties or adversely affect water quality; and</p> <p>iv. a power supply.</p> <p>c. New structures must be relocatable and must be relocated off the site by 30 April 2018, unless they comply with the District Plan rules. Sites and existing structures must be remediated to their state prior to the</p> |

| | | |
|----|---|--|
| | | <p>listed Significant Tree or Heritage Setting or Heritage Item that is not permitted in Chapter 9 of the District Plan.</p> <p>k. The activity must have at least one access to an existing road.</p> <p>l. The activity must not involve subdivision of land.</p> <p>m. Any Outdoor advertisements shall comply with all standards for that zone in the Signs provisions under Rule 6.8.</p> <p>n. The activity shall not involve the sale of alcohol between 11pm and 7am within 75m of a Residential zone.</p> <p>o. Any outdoor storage area shall:</p> <ul style="list-style-type: none"> i. not be located in a required setback. ii. if used for a continuous period of more than 1 year, shall be screened by fencing, landscaping or buildings so as not to be visible 1.8m above ground level on any adjoining road or residential property. <p>p. The activity and/or buildings shall be located greater than:</p> <ul style="list-style-type: none"> i. 12 metres from the centre line of a 110kV or 220kV National Grid transmission line and 12 metres from a foundation of an associated support structure; ii. 10 metres from the centre line of a 66kV National Grid transmission line and 10m from a foundation of an associated support structure. |
| P4 | Industrial activity until the 30 April 2018, located in Industrial General; Industrial Heavy (except Springs Road) zones. | <p>a. The activity moved from the land or building it occupied prior to the 2010 and 2011 Canterbury Earthquakes because that land or building could not be occupied due to:</p> <ul style="list-style-type: none"> i. the building being uninhabitable or demolished as |

| | | |
|--|--|--|
| | | <p>a consequence of the 2010 and 2011 Canterbury Earthquakes; or</p> <ul style="list-style-type: none"> ii. the building or land being evacuated to enable the repair of the land or building that was damaged by the 2010 and 2011 Canterbury Earthquakes; or iii. a risk to people and property from the continued use of the land or building as a consequence of the 2010 and 2011 Canterbury Earthquakes, including risks from neighbouring properties. <p>b. The activity shall be connected to or be serviced by:</p> <ul style="list-style-type: none"> i. a means of sanitary sewage disposal; ii. a potable water supply that meets the standards of the Canterbury District Health Board and a water supply for firefighting consistent with the New Zealand Fire Service Firefighting Water Supplies Code of Practice (SNZ PAS4509:2008) iii. a method of discharging stormwater that does not discharge stormwater on to adjoining properties or adversely affect water quality; and iv. a power supply. <p>c. New structures must be relocatable and must be relocated off the site by 30 April 2018, unless they comply with the District Plan rules. Sites and existing structures must be remediated to their state prior to the temporary earthquake recovery activity being located there, or a state in compliance</p> |
|--|--|--|

| | | |
|--|--|---|
| | | <p>with District Plan rules. All structures and sites must be left clean and tidy.</p> <p>d. Any new structures shall comply with the height and recession plane standards for the relevant zone.</p> <p>e. Any new structures must be set back at least 3m from any road boundary or must comply with any setback from road boundary standards in the relevant zone, whichever is the lesser.</p> <p>f. Any new structures must be set back at least 3m from any boundary with a Residential zone.</p> <p>g. The activity shall provide at least 25% of the car parks required by Table 7.2 and Table 7.3 in Appendix 7.1 – Parking space requirements. Car parks shall be designed in accordance with the standards in Appendix 7.1. Manoeuvring for parking and loading areas shall be provided in compliance with Rule 7.2.3.4. Any additional vehicle accesses shall be designed in accordance with Rule 7.2.3.7 and shall provide vehicle crossings that comply with Rule 7.2.3.8.</p> <p>h. The activity shall comply with Rule 7.2.3.10 High trip generators.</p> <p>i. The activity shall comply with all standards for that zone in the Noise provisions under Rule 6.1.</p> <p>j. Any activity on a site adjoining a Residential zone shall comply with all standards for that zone in the Outdoor Lighting and Glare provisions under Rule 6.3.</p> <p>k. The activity shall comply with all standards for that zone in the Hazardous Substances and Contaminated Land provisions in Chapter 12.</p> <p>l. The activity must not result in the alteration or destruction of any listed Significant Tree or Heritage Setting or Heritage Item that is not permitted in Chapter 9 of the District Plan.</p> |
|--|--|---|

| | | |
|----|--|---|
| | | <p>m. The activity must have at least one access to an existing road.</p> <p>n. The activity must not involve subdivision of land.</p> <p>o. Any Outdoor advertisements shall comply with all standards for that zone in the Signs provisions under Rule 6.8.</p> <p>p. The activity and/or buildings shall be located greater than:</p> <ul style="list-style-type: none"> i. 12 metres from the centre line of a 110kV or 220kV National Grid transmission line and 12 metres from an associated support structure; ii. 10 metres from the centre line of a 66kV National Grid transmission line and 10m from a foundation of an associated support structure. |
| P5 | <p>Storage facilities until the 30 April 2018, located in Commercial or Industrial zones (excluding Commercial Core (New Brighton); Industrial Heavy (Springs Road); Industrial Park (Memorial Avenue) and Industrial Park (Wairakei Road)).</p> | <p>a. The storage is for goods, machinery and vehicles either:</p> <ul style="list-style-type: none"> i. used for construction work (as defined in section 6 of the Construction Contracts Act 2002) to repair or rebuild land, buildings, infrastructure or other facilities damaged by the Canterbury Earthquakes; or ii. relocated from land or buildings being repaired or rebuilt as a consequence of the Canterbury Earthquakes. <p>b. The activity shall be connected to or be serviced by:</p> <ul style="list-style-type: none"> i. a means of sanitary sewage disposal; ii. a potable water supply that meets the standards of the Canterbury District Health Board and a water supply for firefighting consistent with the New Zealand Fire Service Firefighting Water Supplies Code of Practice (SNZ PAS4509:2008); iii. a method of discharging stormwater that does not discharge stormwater |

| | | |
|--|--|---|
| | | <p>on to adjoining properties or adversely affect water quality; and</p> <p>iv. a power supply.</p> <p>c. New structures must be relocatable and must be relocated off the site by 30 April 2018, unless they comply with the District Plan rules. Sites and existing structures must be remediated to their state prior to the temporary earthquake recovery activity being located there, or a state in compliance with District Plan rules. All structures and sites must be left clean and tidy.</p> <p>d. Any new structures shall comply with the height and recession plane standards for the relevant zone.</p> <p>e. Any new structures must comply with any setback from road boundary standards in the relevant zone.</p> <p>f. Any new structures must be set back at least 3m from the boundary with any Residential zone.</p> <p>g. The activity shall provide at least 25% of the car parks required by Table 7.2 and Table 7.3 in Appendix 7.1 – Parking space requirements. Car parks shall be designed in accordance with the standards in Appendix 7.1. Manoeuvring for parking and loading areas shall be provided in compliance with Rule 7.2.3.4. Any additional vehicle accesses shall be designed in accordance with Rule 7.2.3.7 and shall provide vehicle crossings that comply with Rule 7.2.3.8.</p> <p>h. The activity shall comply with Rule 7.2.3.10 High trip generators.</p> <p>i. In the Industrial and Commercial zones, the activity shall comply with all standards for that zone in the Noise provisions under Rule 6.1.</p> <p>j. The activity is not required to comply with any additional acoustic insulation requirements or standards arising from the Port Influences Overlay or Airport Noise Contours.</p> |
|--|--|---|

| | | |
|----|--|--|
| | | <p>k. Any activity on a site adjoining a Residential zone shall comply with all standards for that zone in the Outdoor Lighting and Glare provisions under Rule 6.3.</p> <p>l. The activity shall comply with all standards for that zone in the Hazardous Substances and Contaminated Land provisions in Chapter 12.</p> <p>m. The activity must not result in the alteration or destruction of any listed Significant Tree or Heritage Setting or Heritage Item that is not permitted in Chapter 9 of the District Plan.</p> <p>n. 6.4.2.2 Restricted discretionary activities

Activities listed below are Restricted Discretionary Activities.

Discretion to grant or decline consent and impose conditions is restricted to the Matters of Discretion set out in the following table.

| Activity | | The Council's discretion shall be limited to the following matters: |
|------------|--|---|
| RD1 | <p>One Residential Unit on a site until the 30 April 2018, additional to that otherwise permitted in the District Plan rules, located in a Residential Banks Peninsula, Residential Conservation, Residential Medium Density, Residential Suburban, or Residential Suburban Density Transition zone, which does not comply with the Activity specific standards e, f or h for P6.</p> <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | <p>As relevant to the breached standard;</p> <p>a. Activity Specific Standard e Street scene:</p> <p>Whether the reduced setback will significantly detract from the character of the street taking into account:</p> <ul style="list-style-type: none"> i. Necessity in order to allow more efficient, practical and/or pleasant use of the remainder of the site or the protection of significant trees, listed heritage buildings, or natural features on the site; ii. The ability to provide opportunities for garden and tree planting in the vicinity of road boundaries; iii. The openness of the site to the street; iv. The adverse effects of the building intrusion into the street scene or reduction of screening on the outlook and privacy of people on adjoining sites; v. The relevance of other factors in the surrounding environment in reducing the adverse effects, such as existing wide road widths, street plantings and the orientation of existing buildings on adjoining sites. |

| | | |
|------------|--|---|
| | | <p>b. Activity Specific Standard f - Minimum building setbacks from internal boundaries: Whether the reduced setback will significantly detract from the outlook of occupants taking into account:</p> <ul style="list-style-type: none"> i. the need to enable an efficient, practical and/or pleasant use of the remainder of the site; ii. the need to protect significant trees, listed heritage buildings, or natural features on the site; iii. the need to provide opportunities for garden and tree plantings around buildings; iv. unique or exceptional site specific circumstances that would result in a situation where compliance with the standards would have an unduly restrictive impact on the ability to develop the site; v. the need to provide occupants with adequate levels of daylight and outlook, including impacts from the visual dominance by buildings on the outlook from adjoining sites and buildings, which is out of character with the local environment. <p>c. Activity Specific Standard h site coverage: Whether the infringement is appropriate to its context taking into account the balance of open space and buildings in the area and avoids a significant reduction in the open space character of the area.</p> |
| RD2 | Two or three Residential Unit on a site until the 30 April 2018, additional to that otherwise permitted in the District Plan rules, located in a Residential Banks Peninsula, Residential Conservation, Residential Medium Density, Residential Suburban, or | <p>As relevant to the breached standard;</p> <p>a. Activity Specific Standard e Street scene: Whether the reduced setback will significantly detract from the character of the street taking into account</p> <ul style="list-style-type: none"> i. Necessity in order to allow more efficient, practical and/or pleasant use of the remainder of the site or the protection of significant trees, listed |

| | | |
|--|--|--|
| | <p>Residential Suburban Density Transition zone, which do not comply with the Activity specific standards e, f or h for P7.</p> <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | <p>heritage buildings, or natural features on the site;</p> <ul style="list-style-type: none"> ii. The ability to provide opportunities for garden and tree planting in the vicinity of road boundaries; iii. The openness of the site to the street; iv. The adverse effects of the building intrusion into the street scene or reduction of screening on the outlook and privacy of people on adjoining sites; v. The relevance of other factors in the surrounding environment in reducing the adverse effects, such as existing wide road widths, street plantings and the orientation of existing buildings on adjoining sites. <p>b. Activity Specific Standard f - Minimum building setbacks from internal boundaries:</p> <p>Whether the reduced setback will significantly detract from the outlook of occupants taking into account:</p> <ul style="list-style-type: none"> i. the need to enable an efficient, practical and/or pleasant use of the remainder of the site; ii. the need to protect significant trees, listed heritage buildings, or natural features on the site; iii. the need to provide opportunities for garden and tree plantings around buildings; iv. unique or exceptional site specific circumstances that would result in a situation where compliance with the standards would have an unduly restrictive impact on the ability to develop the site; v. the need to provide occupants with adequate levels of daylight and outlook, including impacts from the visual dominance by buildings on the outlook |

| | | |
|-------------------|---|---|
| | | <p>from adjoining sites and buildings, which is out of character with the local environment.</p> <p>c. Activity Specific Standard h site coverage: Whether the infringement is appropriate to its context taking into account the balance of open space and buildings in the area and avoids a significant reduction in the open space character of the area.</p> |
| <p>RD3</p> | <p>Four or more Residential Unit on a site until the 30 April 2018, additional to that otherwise permitted in the District Plan rules, located in a Residential Banks Peninsula, Residential Conservation, Residential Medium Density, Residential Suburban, or Residential Suburban Density Transition zone or Commercial Core, Commercial Fringe or Commercial Local Zone, or the Commercial Banks Peninsula Zone at Lyttelton. The activity may include ancillary structures including ablution blocks, kitchens, laundries, and site management offices which;</p> <ol style="list-style-type: none"> 1. complies with the Activity specific standards for P7; 2. includes a concept plan showing proposed structures, access, services, car parking and amenities, and 3. includes a site management plan or agreement outlining how day to day operations on site will be managed to minimise any potential nuisance on surrounding sites and areas. | <ol style="list-style-type: none"> a. Whether the design and layout of the proposal minimises any potential nuisance on surrounding sites and areas. b. Whether the site management plan or agreement, outlining how day to day operations on site will be managed, and will minimise any potential nuisance on surrounding sites and areas. |

| | | |
|------------|--|---|
| | <p>The activity may include ancillary structures including ablution blocks, kitchens, laundries, and site management offices.</p> <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | |
| RD4 | <p>Any Activity listed in 6.4.2.2.1 that does not comply with any one or more of the Activity Specific Standards set out in Rule 6.4.2.2.1.</p> | <p>a. The level of adverse effect on the amenity values of the immediate environment taking into account the length of time the adverse effect will be in place.</p> <p>b. The types of mitigation available, their practicality to implement and their effectiveness to mitigate the adverse effect.</p> |
| RD5 | <p>Any activity listed in Rule 6.4.2.2.1 that cannot be a permitted activity due to all relevant standards not being operative.</p> <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | <p>a. The need for the activity to remain in its location for a longer period including:</p> <ol style="list-style-type: none"> i. alternative locations available for the activity to relocate into and why these are not feasible or desirable options at this time; ii. how and in what timeframe the activity will transition to a permanent location; iii. the term of the consent. <p>b. Any significant adverse effects of temporary activity on its immediate environment, including consideration of any compliance issues or breaches of standards that have arisen in the operation of the temporary activity.</p> <p>c. Any breach of the permitted activity or restricted discretionary standards relevant to the activity.</p> <p>d. Any implications for the recovery of areas that the activity is anticipated to be located in, if the temporary activity is to remain for the period sought in the consent.</p> <p>e. If necessary, the manner in which the site will be remediated following cessation of the activity.</p> |
| RD6 | <p>Any Activity listed in 6.4.2.2.1 or 6.4.2.2.2 (RD1, RD2 and RD3) after 30 April 2018 until 30 April 2022.</p> <p>Any application will not require written approvals and shall not be limited or publicly notified.</p> | <p>a. The need for the activity to remain in its location for a longer period including:</p> <ol style="list-style-type: none"> i. alternative locations available for the activity to relocate into and why these are not feasible or desirable options at this time; ii. how and in what timeframe the activity will transition to a permanent location; |

| | | |
|--|--|--|
| | | <p>iii. the term of the consent.</p> <p>b. Any significant adverse effects of temporary activity on its immediate environment, including consideration of any compliance issues or breaches of standards that have arisen in the operation of the temporary activity.</p> <p>c. Any breach of the permitted activity or restricted discretionary standards relevant to the activity.</p> <p>d. Any implications for the recovery of areas that the activity is anticipated to be located in, if the temporary activity is to remain for the period sought in the consent.</p> <p>e. If necessary, the manner in which the site will be remediated following cessation of the activity.</p> |
|--|--|--|

6.4.2.2.3 Discretionary activities

There are no Discretionary Activities in Rule 6.4.2.

6.4.2.2.4 Non-complying activities

| Activity | |
|----------|---|
| NC1 | Activities P2 to P6 listed in 6.4.2.2.1 that do not comply with activity specific standards P2 (x), P3 (p), P4 (p), P5 (r), P6 (m) and P7 (n) (Setback from the National Grid line and support structures). |
| NC2 | Any Activity listed in 6.4.2.2.1 or 6.4.2.2.2 (RD1, RD2 and RD3) after 30 April 2022. |

CHAPTER 14 Residential (part)

14.1.1.8 Policy - Temporary infringement for earthquake repairs

- a. Enable temporary infringement of built form standards relating to building height and recession planes to facilitate the timely completion of repairs to earthquake damaged houses and ancillary buildings.

Note: This policy also applies to Objectives 14.1.2 and 14.1.3.

14.2.2 Activity status tables

14.2.2.1 Permitted Activities

In the Residential Suburban Zone and the Residential Suburban Density Transition Zone the activities listed below are permitted activities if they comply with the Activity Specific Standards set out in this table and the Built Form Standards in Rule 14.2.3.

Activities may also be restricted discretionary, discretionary, noncomplying or prohibited as specified in Rules 14.2.2.3, 14.2.2.4, 14.2.2.5, and 14.2.2.6.

| Activity | Activity Specific Standards |
|---|--|
| <p>P23 Temporary lifting or moving of earthquake damaged buildings where there is non compliance with one or more of Rules 14.2.3.3, 14.2.3.4, 14.2.3.5, 14.2.3.6, 14.2.3.7.</p> | <ul style="list-style-type: none"> a. Buildings shall not be: <ul style="list-style-type: none"> i. moved to within 1m of an internal boundary and/or within 3m of any waterbody, scheduled tree, listed heritage item, natural resources and Council owned structure, archaeological site, or the coastal marine area; ii. lifted to a height exceeding 3.0m above the applicable recession plane or height control; b. The building must be lowered back or moved back to its original position, or a position compliant with the District Plan or consistent with a resource consent, within 12 weeks of the lifting or moving works having first commenced. c. In all cases of a building being moved or lifted, the owners/occupiers of land adjoining the sites shall be informed of the work at least seven days prior to the lift or move of the building occurring. The information provided shall include details of a contact person, details of the lift or move, and the duration of the lift or move. d. The Council’s Resource Consents Manager shall be notified of the lifting or moving the building at least seven days prior to the lift or move of the building occurring. The notification must include details of the lift or move, property address, contact details and intended start date. |

14.2.2.3 Restricted Discretionary Activities

The activities listed below are restricted discretionary activities.

Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in 14.9 for each standard, as set out in the following table.

| Activity | | The Council's discretion shall be limited to the following matters: |
|-----------------|---|--|
| RD11 | <p>Temporary lifting or moving of earthquake damaged buildings that does not meet the standards in Rule 14.2.2.1 P23.</p> <p>Any application arising from this rule will not require written approvals and shall not be publicly or limited notified.</p> | <p>a. Temporary lifting or moving of earthquake damaged buildings - 14.9.23.</p> |

14.3.2.1 Permitted Activities

In the Residential Medium Density Zone the activities listed below are permitted activities if they comply with any Activity specific standards set out in this table and the Built form standards in Rule 14.3.3 and the area specific standards in Rule 14.3.4.

Activities may also be restricted discretionary, discretionary, non complying or prohibited as specified in Rules 14.3.2.3, 14.3.2.4, 14.3.2.5, and 14.3.2.6.

| Activity | | Activity specific standards |
|-----------------|---|---|
| 16 | <p>Temporary lifting or moving of earthquake damaged buildings where there is non compliance with one or more of Rules 14.3.3.2, 14.3.3.3, 14.3.3.4, 14.3.3.5; or 14.3.3.6.</p> | <p>a. Buildings shall not be:</p> <p>i. moved to within 1m of an internal boundary and/or within 3m of any waterbody, scheduled tree, listed heritage item, natural resources and Council owned structure, archaeological site, or the coastal marine area;</p> |

| | | |
|--|--|--|
| | | <ul style="list-style-type: none"> ii. lifted to a height exceeding 3.0m above the applicable recession plane or height control. b. The building must be lowered back or moved back to its original position, or a position compliant with the District Plan or consistent with a resource consent, within 12 weeks of the lifting or moving works having first commenced. c. In all cases of a building being moved or lifted, the owners/occupiers of land adjoining the sites shall be informed of the work at least seven days prior to the lift or move of the building occurring. The information provided shall include details of a contact person, details of the lift or move, and the duration of the lift or move. d. The Council’s Resource Consents Manager shall be notified of lifting or moving the building at least seven days prior to the lift or move of the building occurring. The notification must include details of the lift or move, property address, contact details and intended start date. |
|--|--|--|

14.3.2.3 Restricted Discretionary Activities

The activities listed below are Restricted Discretionary Activities.

Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in [14.9](#) for each standard, as set out in the following table.

| Activity | | The Council's discretion shall be limited to the following Matters: |
|-----------------|---|---|
| RD9 | <p>Temporary lifting or moving of earthquake damaged buildings that does not meet the standards in Rule 14.3.2.1 P16.</p> <p>Any application arising from this rule will not require written approvals and shall not be publicly or limited notified.</p> | <p>a. Temporary lifting or moving of earthquake damaged buildings - 14.9.23</p> |

14.4.2.1 Permitted Activities

In the Residential Banks Peninsula Zone the activities listed below are permitted activities if they comply with any Activity Specific Standards set out in this table and the Built Form Standards in Rule 14.4.3.

Activities may also be restricted discretionary, discretionary, non complying or prohibited as specified in Rules 14.4.2.3, 14.4.2.4, 14.4.2.5 and 14.4.2.6.

| | | |

14.4.2.3 Restricted Discretionary Activities

The activities listed below are restricted discretionary activities.

Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in 14.9 for each standard, as set out in the following table.

| Activity | | The Council's discretion shall be limited to the following matters: |
|-----------------|--|--|
| RD4 | Temporary lifting or moving of earthquake damaged buildings that does not meet the standards in Rule 14.4.2.1 P13. | <p>a. Temporary lifting or moving of earthquake damaged buildings - 14.9.23.</p> <p>Any application arising from this rule will not require written approvals and shall not be publicly or limited notified.</p> |

14.5.2.1 Permitted Activities

In the Residential Conservation Zone the activities listed below are permitted activities if they comply with any Activity Specific Standards set out in this table and the Built Form Standards in Rule 14.5.3.

Activities may also be restricted discretionary, discretionary, non complying or prohibited as specified in Rules 14.5.2.3, 14.5.2.4, 14.5.2.5, and 14.5.2.6.

| | Activity | Activity Specific Standard |

14.5.2.3 Restricted Discretionary Activities

The activities listed below are Restricted Discretionary Activities.

Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in 14.9 for each standard, as set out in the following table.

| | Activity | The Council's discretion shall be limited to the following matters: |
|-----|--|--|
| RD4 | Temporary lifting or moving of earthquake damaged buildings that does not meet the standards in Rule 14.5.2.1 P13. | <p>a. Temporary lifting or moving of earthquake damaged buildings - 14.9.23.</p> <p>Any application arising from this rule will not require written approvals and shall not be publicly or limited notified.</p> |

14.9.23 Temporary lifting or moving of earthquake damaged buildings

Whether the temporary lifting or moving of the earthquake damaged building is appropriate taking into account:

1. The effect of reduced proximity on the amenity and/or operation of any neighbouring sites, water way, coastal marine area, archaeological site, or protected tree;
2. The duration of time that the building will intrude upon the recession plane;
3. Any adverse effects on adjoining owners or occupiers relating to shading and building dominance; and
4. Occupancy of the neighbouring properties of the duration of the works, the extent to which neighbouring properties are occupied for the duration of the works.
